

Central High School had an enrollment of 4,176 for the 2017/18 school year. The school has two sites, the West Campus and the East Campus but operates as a single high school in terms of its programs, sports and academics. Construction is scheduled to start on a new high school on property owned by Central Unified adjacent to the existing stadium on the corner of N. Grantland Ave and W. Ashlan Ave. Construction is scheduled to start in 2019-20 school year once the Office of Public School Construction releases our state matching share of building funds.

The District will assemble a committee to study the various options for the future in terms of the high school programs and locations. This survey is being conducted to get your input on the future of Central Unified School District high school programs and potential high school attendance areas. Attached to this survey are two potential configurations for high school attendance areas.

1. Please let us know which of the following groups best represent you:
 - Teacher
 - Administration
 - Parent
 - Student
 - Community Member
 - Business Owner
 - Other (please specify)
2. What size of a committee would work best for studying the high school configuration options?
 - Small (5-7 members)
 - Medium (8-12 members)
 - Large (15-25 members)
3. Which groups should be included on the committee in addition to the District Administration and School Board? (select all that apply)
 - Parents
 - Teachers
 - Students
 - Community Members
 - Business Owner
 - Other (please specify)
4. Which item listed below are you most concerned about as the District explores high school options?
 - Academic Progress
 - Athletic Programs
 - Career Tech Ed Programs

- School Boundaries
- School Size, Enrollment
- Timeline to implement changes
- Transportation to/from school/shuttles
- VAPA (Visual and Performance Arts) programs
- Other (please specify)

5. Which of the following options are you most in favor of until a new high school is built?

- Leave boundary as is until the new high school is built
- Create two (2) comprehensive high schools (East and West) with boundaries prior to constructing the new high school
- Other (please specify)

6. Which of the following options are you most in favor of after the new high school is built?

- Three (3) individual comprehensive high schools (East, West, and New)
- Two (2) comprehensive high schools (East and New) with one magnet/choice high school (West)
- Two (2) comprehensive high schools (East and New) with one Career Tech Education Center (CTE similar to Center for Advanced Research and Technology CART) to provide specialized education for high school students that choose to attend. (West)
- Other (please specify)

7. What do you like about the way the current high school functions?

8. What concerns do you have with the way the current high school functions?

Central Unified School District
