Company's Official Registered Name: SYNnex Corporation

Brief History of Company:

SYNNEX Corporation was formed in 1980 and is now a Fortune 212 company that offers a comprehensive range of industry-leading IT products and business services to our reseller customers. We've built a solid reputation for delivering customized, fully-integrated solutions, services, and support, including distribution, contract assembly, business process outsourcing, and logistics.

We're aligned with the top manufacturers in the IT industry to distribute products to more than 25,000 resellers throughout North America. Key suppliers include: Panasonic, HP, Intel, Seagate, Microsoft, and Lenovo. Our sales staff is grouped by product segment, allowing them to focus their expertise and experience to manage all lines and provide an engaged, consultative sales approach. With 11 US distribution facilities, SYNnex gets the right products to market quickly and cost-effectively. Our model streamlines business processes to help resellers lower their costs and create greater efficiencies. We provide a variety of professional and marketing services, including: demand generation, education and training, pre- and post-sale technical support, end-user enablement, server assessment, design and integration, recycling and trade-in, and IT resource planning. SYNnex provides contract assembly services, ranging from original design and printed circuit board assembly to fully-integrated supply chain management, build-to-order (BTO) and configure-to-order (CTO), final assembly, materials management, production value-add, and logistics.

SYNNEX sponsors a wide variety of programs, communities, and events to build and grow our resellers' business in specific vertical markets. For example, our Government, Education, and Healthcare programs help resellers compete in these high-growth markets, and SYNnex with our comprehensive GSA schedule, is able to simplify the complex government bidding process.

Our Services

SYNNEX offers a variety of services to our customers. The three major categories of services include the following:

Distribution Services. SYNnex 's distribution services segment distributes a broad line of IT products, including IT systems, peripherals, system components, software and networking equipment for leading IT OEM suppliers, enabling us to offer comprehensive solutions to our reseller and retail customers. Our reseller customers include value-added resellers, or VARs, corporate resellers, government resellers, system integrators, direct marketers and retailers. We distribute more than 2,000,000 technology products from leading IT OEM partners to more than 25,000 resellers throughout the United States, Canada and Mexico. We combine our core strength in distribution with our service model to provide our customers greater efficiencies in time to market, cost minimization, real time linkages in the supply chain and aftermarket product support.

Contract Assembly Services. SYNnex offers contract assembly services to original equipment manufacturers (OEMs). Offerings range from original design and printed circuit board assembly

capabilities to fully-integrated supply chain management, build-to-order (BTO) and configure-to-order (CTO), final assembly, materials management, production value-add and logistics services.

Business Process Outsourcing. The BPO segment offers various services comprising customer management, software development, web hosting, hosted software, domain name registration, and back office processing. This segment delivers its services through voice, chat, Web, email, and digital print. It also sells products complementary to these service offerings in China. In addition, SYNEX Corporation offers various financial services, including net terms, third party leasing and floor plan financing, letters of credit, and arrangements to collect payments directly from the end-user; online services; and marketing services, as well as technical support services consisting of pre and post-sales support. The company serves resellers, retailers, and OEMs located worldwide.

The above major categories of services are complemented by the following:

Logistics Services. SYNEX provides logistics support such as outsourced fulfillment, virtual distribution, and direct ship to end-users to our reseller customers. Other logistics support activities we provide include generation of customized shipping documents, multi-level serial number tracking for customized, configured products, and online order and shipment tracking.

Online Services. SYNEX maintains electronic data interchange (EDI) and web-based communication links with many of our reseller customers. These links improve the speed and efficiency of our transactions with our resellers by enabling them to search for products, check inventory availability and prices, configure systems, place and track orders, receive invoices, review account status, and process returns. We also have web-based application software that allows our resellers or their end-user customers to order software and take delivery online.

Financing Services. SYNEX offers our resellers a wide range of financing options, including net terms, third party leasing, floor plan financing, letters of credit, backed financing, and arrangements where we collect payments directly from the end-user.

Technical Solutions Services. The SYNEX team is made up of highly trained and certified engineers who assist our customers and sales reps with pre sales consultation, post sales troubleshooting, and training inquiries.

Joint Supply Chain Management and Distribution Services. SYNEX provides our contract assembly customers with materials procurement and management activities including planning, purchasing, expediting, and warehousing system components and materials used in the assembly process. Because we distribute many of the system components used in our contract assembly our customers are able to minimize their inventory risk by taking advantage of the terms and conditions of our distribution relationships. In addition, we also offer increased inventory availability to our contract assembly customers because we stock items for both distribution and assembly.

Our Operations

SYNEX operates distribution facilities in the United States, Japan, England, Canada and Mexico. Our distribution processes are highly automated to reduce errors, ensure timely order fulfillment, and enhance the efficiency of our warehouse operations and back office administration. Our distribution facilities are geographically located near reseller customers and their end-users. This decentralized,

regional strategy enables us to benefit from lower shipping costs and shorter delivery lead times to our customers. Furthermore, we track several performance measurements to continuously improve the efficiency and accuracy of our distribution operations.

Our regional locations also enable us to make local deliveries and provide will-call fulfillment to more customers than if our distribution operations were more centralized, resulting in better service to our customers. Our workforce is comprised of permanent and temporary employees, enabling us to respond to short-term changes in order activity.

SYNNEX's proprietary IT systems and processes enable us to automate many of our distribution operations. For example:

- SYNNEX uses radio frequency and bar code scanning technologies in all of our warehouse operations to maintain real-time inventory records
- We facilitate frequent cycle counts and improve the accuracy of order fulfillment
- SYNNEX uses palm readers to capture real-time labor cost data, enabling efficient management of our daily labor costs.

To increase the accuracy of our order fulfillment and protect our inventory from shrinkage, our systems also incorporate numerous controls. These controls include order weight checks, bar code scanning, and serial number profile verification to verify that the product shipped matches the customer order. We also use digital video imaging to record our small package shipping activities by order. These images and other warehouse and shipping data are available online to our customer service representatives, enabling us to quickly respond to order inquiries by our customers.

SYNNEX operates its principal contract assembly facilities in the United States and the United Kingdom. We assemble IT systems that include workstations, servers and high end storage array solutions by incorporating system components from our distribution inventory and other sources. Additionally, we perform production value-added services, including kitting, asset tagging, hard drive imaging and reconfiguration. Our contract assembly facilities are ISO 9001:2000 and ISO 14001 certified.

Describe How your Company will Market this Contract if Awarded.

SYNNEX has a significant amount of experience owning/managing Public Sector contracts. These vehicles do not sell themselves and require a significant amount of investment in sales and demand generation to make them successful. Our plan will include a number of facets addressing both resellers and endusers. Although we don't sell direct to endusers, we do have a team that provides enduser demand generation through call out campaigns; print/mailers; e-mail; website contract landing page and an electronic storefront offering. For our resellers, we will pull our historical procurement data per awarded vendor line to identify the most responsive/responsible resellers selling into State and Local Government, K-12 and higher education nationwide. To date, we have identified 50 resellers and will use this list to identify those resellers we want to authorize on the contract. Likewise we will do this nationwide and include higher education institutions and state/local government sales as well. In this way we can ensure we have the

correct "feet on the street" in all areas covered by NCPA. With this select group of resellers, we will implement regular trainings to ensure they understand the NCPA contract and the target audience. Ongoing efforts will be to establish a regular sales meeting cadence in which we review sales efforts, pending opportunities and any issues. Manufacturers and their local sales teams will likewise be engaged to assist in the identification of opportunities and special pricing. We will provide support for table top shows, collateral and web landing pages for our participating resellers. Ultimately, we see our role as an IT distributor to provide all of the tools a reseller will need to increase their sales on this contract and to help develop the partnership with the vendor and their field sales teams. SYNEX will also make available our extensive technical support team and 24/7 customer service call center to ensure exceptional customer support.

Marketing this contract will include a number of simultaneous activities:

- Press release
- Identifying the resellers we want to authorize to promote this contract
- Reseller recruitment and training
- Multiple training webinars for both internal sales teams and external customers
- Dedicated TCPN web page development
- Development of marketing materials
- Attending industry events and table, top shows
- Ongoing reseller recruitment efforts and internal sales trainings
- Enduser demand generation team will drive awareness with endusers on behalf of our resellers

1) A Proven eCommerce Platform

eStorefrontmall.com is built on top of ECExpress, SYNnex's mission-critical reseller ecommerce platform. You get reliability and comfort knowing we have integrated our code platform, web server knowledge and ERP processes into eStorefrontmall.com.

2) Security for your customers and for you.

eStorefrontmall.com offers the following security features:

- Payment Card Industry (PCI) Security for enhanced payment card data security.
- VeriSign – our sites are VeriSign secured
- Sensitive information is transmitted by Hypertext Transfer Protocol Secure (HTTPS), providing encryption and secure identification.

Maintaining a catalog of product in an online store can be difficult, as new products are introduced and older products expire.

The most widely used file sync and share product in higher education

Dropbox Education connects your campus with the collaboration tool faculty and students prefer, letting them work anywhere on any device. In addition, enterprise-grade security features give you the control and visibility you need to manage data across campus.

1 in 4

Nearly 1 in 4 university students in the U. S. have personal Dropbox accounts

3,000

Faculty and students in over 3,000 educational institutions worldwide use Dropbox

✓ No training required

Already present in over 3,000 educational institutions worldwide and known for supreme usability, there's no training needed when deploying Dropbox Education on campus.

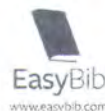

✓ Enterprise security

Enterprise-grade management tools help you control information, monitor activity, and manage transition. Dropbox Education meets the requirements for SOC 1, 2, and 3, ISO 27001, and the EU Safe Harbor frameworks.

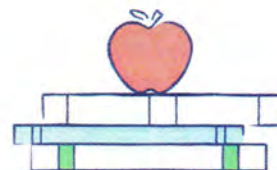

✓ Supports the way you work

Unlike other FSS solutions, Dropbox works with any device or operating system across desktop and mobile, online or offline. Dropbox also hosts the largest repository of Microsoft Office files and integrates with Office 365.

Works with everything: with more than 300,000 apps on the Dropbox Platform, faculty and students can work together with the programs they already use

Collaborate across campus with Dropbox Education

Collecting assignments, coordinating research, and collaborating on group work can be challenging when everyone on campus uses a different file storage solution. Thankfully, Dropbox Education offers tools to help you collaborate on any type of project - even when your collaborators don't have Dropbox accounts. This means faculty, staff, and students can work with anyone, efficiently and securely.

Professors: collect assignments with ease

With Dropbox Education, instructors can collect final papers from students without sorting through dozens of email attachments or using complicated tools. They can simply send a file request, where students can upload files - big or small - even if they don't have Dropbox. All of the assignments will be saved to a specified folder in the instructor's Dropbox. You can set automatic deadlines on your request, and even collect late submissions in a separate folder.

Professors and students can collaborate one-to-one on a thesis project using a shared folder. Students can regularly submit their latest chapters by simply saving them in the folder, where it's automatically available to others. The professor will get a notification when new chapters are added, and can annotate any part of the document right from the preview.

Staff: keep everything in one place

Administrators and department staff can keep information organized and protected using Dropbox. For example, Human Resources can send out forms for faculty or staff to fill out, and use a file request to collect their completed paperwork. Submissions will be saved neatly in the staff member's Dropbox folder, where powerful sharing controls will ensure they stay in the right hands.

Students: collaborate on group work

Shared folders enable seamless collaboration for any group project. Everyone in a shared folder can add and edit files, and changes sync instantly across the group. In Microsoft Office, students can even see when someone else is viewing or editing a file they're working on, and update to the latest saved version.

Students in charge of a research project can compile any contributors' work using a file request. There, they can gather data into one Dropbox folder - and even send out the final paper via a shared link, no matter how large the file size is.

Tab 8 – Value Added Products and Services

- ◆ Include any additional products and/or services available that vendor currently performs in their normal course of business that is not included in the scope of the solicitation that you think will enhance and add value to this contract for Region 14 ESC and all NCPA participating entities.

National Cooperative Purchasing Alliance

Introduction / Scope

- ◆ Region 14 ESC on behalf of itself and all states, local governments, school districts, and higher education institutions in the United States of America, and other government agencies and non-profit organizations (herein “Public Agency” or collectively “Public Agencies”) is soliciting proposals from qualified vendors to enter into a Master Agreement for a complete line of Cloud Collaboration and Storage Services.
- ◆ Region 14 ESC, as the lead public agency, has partnered with NCPA to make the resultant contract available to all participating agencies in the United States. NCPA provides marketing and administrative support for the awarded vendor that promotes the successful vendor’s products and services to Public Agencies nationwide. The Vendor will execute the NCPA Administration Agreement (Tab 2) upon award. Vendor should thoroughly review all documents and note any exceptions to NCPA terms and conditions in their proposal.
- ◆ Awarded vendor(s) shall perform covered services under the terms of this agreement. Respondents shall provide pricing based on a discount from their standard pricing schedules for products and/or services offered. Electronic Catalog and/or price lists must accompany the proposal. Multiple percentage discount structure is also acceptable. Please specify where different percentage discounts apply. Additional pricing and/or discounts may be included.
- ◆ Each service proposed is to be priced separately with all ineligible items identified. Services may be awarded to multiple vendors. Respondents may elect to limit their proposals to a single service within any category, or multiple services within any and all categories.
- ◆ National Cooperative Purchasing Alliance (NCPA)
 - The National Cooperative Purchasing Alliance (herein “NCPA”) assists public agencies to increase their efficiency and reduce their costs when procuring goods and services. This is accomplished by awarding competitively solicited contracts that are leveraged nationally by combining the volumes and purchasing power of entities nationwide. Our contracts are available for use by any entity that must comply with procurement laws and regulations.
- ◆ It is the intention of Region 14 ESC and NCPA to achieve the following objectives through this RFP.
 - Provide a comprehensive competitively solicited Master Agreement offering Products and Services to Public Agencies;
 - Achieve cost savings of Vendors and Public Agencies through a single competitive solicitation process that eliminates the need for multiple proposals;
 - Combine the purchasing power of Public Agencies to achieve cost effective pricing;
 - Reduce the administrative and overhead costs of Vendors and Public Agencies through state of the art purchasing procedures.

Required Clauses for Federal Assistance provided by FTA

ACCESS TO RECORDS AND REPORTS

Contractor agrees to:

- a) Maintain all books, records, accounts and reports required under this Contract for a period of not less than three (3) years after the date of termination or expiration of this Contract or any extensions thereof except in the event of litigation or settlement of claims arising from the performance of this Contract, in which case Contractor agrees to maintain same until Public Agency, the FTA Administrator, the Comptroller General, or any of their duly authorized representatives, have disposed of all such litigation, appeals, claims or exceptions related thereto.

FTA does not require the inclusion of these requirements of Article 1.01 in subcontracts. Reference 49 CFR 18.39 (i)(11).

- 1) Non-discrimination. In accordance with Title VI of the Civil Rights Act of 1964, as amended, 42 U.S.C. § 2000d, Section 303 of the Age Discrimination Act of 1975, as amended, 42 U.S.C. § 6102, Section 202 of the Americans with Disabilities Act of 1990, as amended, 42 U.S.C. § 12132, and Federal Transit Law at 49 U.S.C. § 5332, Contractor or subcontractor agrees that it will not discriminate against any employee or applicant for employment because of race, color, creed, national origin, sex, marital status age, or disability. In addition, Contractor agrees to comply with applicable Federal implementing regulations and other implementing requirements FTA may issue.
- 2) Equal Employment Opportunity. The following Equal Employment Opportunity requirements apply to this Contract:
 - a. Race, Color, Creed, National Origin, Sex. Contractor agrees to take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, creed, national origin, sex, marital status, or age. Such action shall include, but not be limited to, the following: employment, upgrading, demotion or transfer, recruitment or recruitment advertising, layoff or termination, rates of pay or other forms of compensation; and selection for training, including apprenticeship. In addition, Contractor agrees to comply with any implementing requirements FTA may issue.
 - b. Age. In accordance with the Age Discrimination in Employment Act (ADEA) of 1967, as amended, 29 U.S.C. Sections 621 through 634, and Equal Employment Opportunity Commission (EEOC) implementing regulations, "Age Discrimination in Employment Act", 29 CFR Part 1625, prohibit employment discrimination by Contractor against individuals on the basis of age, including present and prospective

employees. In addition, Contractor agrees to comply with any implementing requirements FTA may issue.

- c. Disabilities. In accordance with Section 102 of the Americans with Disabilities Act of 1990, as amended (ADA), 42 U.S.C.  - d. Segregated Facilities. Contractor certifies that their company does not and will not maintain or provide for their employees any segregated facilities at any of their establishments, and that they do not and will not permit their employees to perform their services at any location under the Contractor's control where segregated facilities are maintained. As used in this certification the term "segregated facilities" means any waiting rooms, work areas, restrooms and washrooms, restaurants and other eating areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing facilities provided for employees which are segregated by explicit directive or are in fact segregated on the basis of race, color, religion or national origin because of habit, local custom, or otherwise. Contractor agrees that a breach of this certification will be a violation of this Civil Rights clause.
- 3) Solicitations for Subcontracts, Including Procurements of Materials and Equipment. In all solicitations, either by competitive bidding or negotiation, made by Contractor for work to be performed under a subcontract, including procurements of materials or leases of equipment, each potential subcontractor or supplier shall be notified by Contractor of Contractor's obligations under this Contract and the regulations relative to non-discrimination on the grounds of race, color, creed, sex, disability, age or national origin.
 - 4) Sanctions of Non-Compliance. In the event of Contractor's non-compliance with the non-discrimination provisions of this Contract, Public Agency shall impose such Contract sanctions as it or the FTA may determine to be appropriate, including, but not limited to: 1) Withholding of payments to Contractor under the Contract until Contractor complies, and/or; 2) Cancellation, termination or suspension of the Contract, in whole or in part.

Contractor agrees to include the requirements of this clause in each subcontract financed in whole or in part with Federal assistance provided by FTA, modified only if necessary to identify the affected parties.

DISADVANTAGED BUSINESS PARTICIPATION

This Contract is subject to the requirements of Title 49, Code of Federal Regulations, Part 26, "*Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Programs*", therefore, it is the policy of the Department of Transportation (DOT) to ensure that Disadvantaged Business Enterprises (DBEs), as defined in 49 CFR Part 26, have an equal opportunity to receive and participate in the performance of DOT-assisted contracts.

- 1) Non-Discrimination Assurances. Contractor or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this Contract. Contractor shall carry out all applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by Contractor to carry out these requirements is a material breach of this Contract, which may result in the termination of this Contract or other such remedy as public agency deems appropriate. Each subcontract Contractor signs with a subcontractor must include the assurance in this paragraph. (See 49 CFR 26.13(b)).

- 2) Prompt Payment. Contractor is required to pay each subcontractor performing Work under this prime Contract for satisfactory performance of that work no later than thirty (30) days after Contractor's receipt of payment for that Work from public agency. In addition, Contractor is required to return any retainage payments to those subcontractors within thirty (30) days after the subcontractor's work related to this Contract is satisfactorily completed and any liens have been secured. Any delay or postponement of payment from the above time frames may occur only for good cause following written approval of public agency. This clause applies to both DBE and non-DBE subcontractors. Contractor must promptly notify public agency whenever a DBE subcontractor performing Work related to this Contract is terminated or fails to complete its Work, and must make good faith efforts to engage another DBE subcontractor to perform at least the same amount of work. Contractor may not terminate any DBE subcontractor and perform that Work through its own forces, or those of an affiliate, without prior written consent of public agency.
- 3) DBE Program. In connection with the performance of this Contract, Contractor will cooperate with public agency in meeting its commitments and goals to ensure that DBEs shall have the maximum practicable opportunity to compete for subcontract work, regardless of whether a contract goal is set for this Contract. Contractor agrees to use good faith efforts to carry out a policy in the award of its subcontracts, agent agreements, and procurement contracts which will, to the fullest extent, utilize DBEs consistent with the efficient performance of the Contract.

ENERGY CONSERVATION REQUIREMENTS

Contractor agrees to comply with mandatory standards and policies relating to energy efficiency which are contained in the State energy conservation plans issued under the Energy Policy and Conservation Act, as amended, 42 U.S.C. Sections 6321 *et seq.* and 41 CFR Part 301-10.

FEDERAL CHANGES

Contractor shall at all times comply with all applicable FTA regulations, policies, procedures and directives, including without limitation those listed directly or by reference in the Contract between public agency and the FTA, as they may be amended or promulgated from time to time during the term of this contract. Contractor's failure to so comply shall constitute a material breach of this Contract.

INCORPORATION OF FEDERAL TRANSIT ADMINISTRATION (FTA) TERMS

The provisions include, in part, certain Standard Terms and Conditions required by the U.S. Department of Transportation (DOT), whether or not expressly set forth in the preceding Contract provisions. All contractual provisions required by the DOT, as set forth in the most current FTA Circular 4220.1F, dated November 1, 2008, are hereby incorporated by reference. Anything to the contrary herein notwithstanding, all FTA mandated terms shall be deemed to control in the event of a conflict with other provisions contained in this Contract. Contractor agrees not to perform any act, fail to perform any act, or refuse to comply with any public agency requests that would cause public agency to be in violation of the FTA terms and conditions.

NO FEDERAL GOVERNMENT OBLIGATIONS TO THIRD PARTIES

Agency and Contractor acknowledge and agree that, absent the Federal Government's express written consent and notwithstanding any concurrence by the Federal Government in or approval of the solicitation or award of the underlying Contract, the Federal Government is not a party to this Contract and shall not be subject to any obligations or liabilities to agency, Contractor, or any other party (whether or not a party to that contract) pertaining to any matter resulting from the underlying Contract.

Contractor agrees to include the above clause in each subcontract financed in whole or in part with federal assistance provided by the FTA. It is further agreed that the clause shall not be modified, except to identify the subcontractor who will be subject to its provisions.

PROGRAM FRAUD AND FALSE OR FRAUDULENT STATEMENTS

Contractor acknowledges that the provisions of the Program Fraud Civil Remedies Act of 1986, as amended, 31 U.S.C. §§ 3801 et seq. and U.S. DOT regulations, "Program Fraud Civil Remedies," 49 CFR Part 31, apply to its actions pertaining to this Contract. Upon execution of the underlying Contract, Contractor certifies or affirms the truthfulness and accuracy of any statement it has made, it makes, it may make, or causes to be made, pertaining to the underlying Contract or the FTA assisted project for which this Contract Work is being performed.

In addition to other penalties that may be applicable, Contractor further acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification, the Federal Government reserves the right to impose the penalties of the Program Fraud Civil Remedies Act of 1986 on Contractor to the extent the Federal Government deems appropriate.

Contractor also acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification to the Federal Government under a contract connected with a project that is financed in whole or in part with Federal assistance originally awarded by FTA under the authority of 49 U.S.C. § 5307, the Government reserves the right to impose the penalties of 18 U.S.C. § 1001 and 49 U.S.C. § 5307 (n)(1) on the Contractor, to the extent the Federal Government deems appropriate.

Contractor agrees to include the above clauses in each subcontract financed in whole or in part with Federal assistance provided by FTA. It is further agreed that the clauses shall not be modified, except to identify the subcontractor who will be subject to the provisions.

SYNNEX Contract #01-65

On August 1st, 2016 SYNNEX was awarded a NCPA contract for Cloud Collaboration and Storage Services. Under the original RFP Tab 8, there was included a clause for "Value Added Products and Services" which allows the vendor to add "any additional products/services available that the vendor currently performs in their normal course of business that is not included in the scope of this solicitation that will enhance and add value to this contract for all NCPA participating agencies".

NCPA has accepted the entire SYNNEX Line Card Catalog under this clause for Tab 8. This allows SYNNEX to provide not only Cloud Services under their contract but also extend out their entire catalog which will be a great benefit to NCPA participating agencies.

If there are any questions on this matter feel free to reach out to me directly at 832-477-3475 or by email at japplegate@ncpa.us. Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read "Jonathan Applegate", written in a cursive style.

- (E) By either party upon the other party seeking an order for relief under the bankruptcy laws of the United States or similar laws of any other jurisdiction, a composition with or assignment for the benefit of creditors, or dissolution or liquidation.

Notwithstanding the foregoing, SYNEX may in its sole discretion, and without any further liability or obligation of any kind, revoke its appointment of Reseller by providing five (5) business days written notice.

12.2 Effect of Termination. The termination of this Agreement shall in no way affect the obligations of either party regarding orders accepted by SYNEX prior to the effective date of such termination.

12.3 Return of Confidential Information. Upon termination of this Agreement by either party, each party shall return all originals and copies of Confidential Information or destroy the same with certification of such destruction, provided, however, that the Receiving Party may retain an archival copy of Confidential Information as required by record retention policies or law.

12.4 Survival. Provisions herein which by their nature extend beyond the termination or expiration of this Agreement will remain in effect until fulfilled.

13.1 Entire Agreement and Modification. This Agreement shall constitute the entire agreement between the parties with respect to the transactions contemplated hereby and supersedes all prior agreements and understandings between the parties relating to such transactions. The Exhibits attached hereto are considered to be a part of this Agreement. No modification of this Agreement shall be binding, unless in writing and signed by an authorized representative of each party.

13.2 Assignment. This Agreement shall be binding upon and inure to the benefit of the parties and their respective successors and permitted assigns. Neither party hereto shall in any way sell, transfer, assign, or otherwise dispose of any of the rights, privileges, duties and obligations granted or imposed upon it under this Agreement; *provided, however*, SYNEX shall have the right to assign its rights, duties and responsibilities under this Agreement to an affiliate of SYNEX. An affiliate of SYNEX means any corporation, partnership or other business entity which controls, is controlled by, or is under common control with SYNEX.

13.3 Severability. In case any one or more of the provisions contained in this Agreement shall for any reason be held to be invalid, illegal or unenforceable in any respect, except in those instances where removal or elimination of such invalid, illegal, or unenforceable provision or provisions would result in a failure of consideration under this Agreement, such invalidity, illegality or unenforceability shall be severed and shall not affect any other provision hereof. Furthermore, the severed provision shall be replaced by a provision which comes closest to such severed provision, or part thereof, in language and intent, without being invalid, illegal or unenforceable.

13.4 Force Majeure. Neither party shall be liable to the other for any delay in performance or failure to perform, in whole or in part, due to labor dispute, strike, war or act of war (whether an actual declaration is made or not), insurrection, riot, civil commotion, act of public enemy, accident, fire, flood, earthquake, or other act of God, act of any governmental authority, judicial action, computer virus or worm, or similar causes beyond the reasonable control of such party. If any event of force majeure occurs, the party affected by such event shall promptly notify the other party of such event and take all reasonable actions to avoid the effect of such event.

13.5 Independent Contractor. SYNEX and Reseller are and shall be independent contractors to one another, and nothing herein shall be deemed to cause this Agreement to create an agency, partnership, or joint venture between the parties.

13.6 Disputes. Both parties agree to negotiate in good faith the settlement of any disputes that may arise under this Agreement. If necessary, such disputes shall be escalated to appropriate senior management of each party. In the event that such good faith settlements fail, excluding any and all disputes and controversies arising out of or in connection with **Sections 7.1 or 8.1**, any and all other disputes and controversies of every kind and nature between the parties arising out of or in connection with the existence, construction, validity, interpretation, or meaning, performance, non-performance, enforcement, operation, breach, continuance, or termination of this Agreement shall be submitted to binding arbitration, pursuant to the Rules of the American Arbitration Association, before a single arbitrator in Alameda County, California. In the event the parties cannot agree on the arbitrator, then an administrator of the American Arbitration Association shall select an appropriate arbitrator from among arbitrators of the American Arbitration Association with experience in commercial disputes related to technology products. In the event of any litigation arising out of this Agreement or its enforcement by either party, the prevailing party shall be entitled to recover as part of any judgment, reasonable attorneys' fees and court costs.

13.7 No Waiver. The failure of either party to require performance by the other party of any provision of this Agreement shall not affect the full right to require such performance at any later time, nor shall the waiver by a party of a breach of any provision of this Agreement be taken or held to be a waiver of the provision itself.

13.8 Jurisprudence. This Agreement shall be governed by and construed in accordance with the laws of California and the United Nations Convention on Contracts for the International Sale of Goods shall not apply.

13.9 Notice. All written notices required by this Agreement must be delivered in person or by means evidenced by a delivery receipt and will be effective upon receipt.

13.10 Exhibits. Each Exhibit attached hereto is incorporated herein by this reference. The parties may amend any Exhibit from time to time by entering into a separate written agreement, referencing such Exhibit and specifying the amendment thereto, signed by an authorized employee of each of the parties.
