Senate Bill 187: Comprehensive School Safety Plan Purpose

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at the James K. Polk Elementary School office.

Safety Plan Vision

To create and maintain a safe, bully free campus at which students can learn.

Assessment of School Safety

Polk Elementary School takes many steps to insure a safe campus. There are signs posted at both possible entrances and on the outside of each classroom door reminding parents to check in at the front office. Video cameras are located throughout campus. These cameras monitor the front of the school including both parking lots, the main entrance of the school, including the main building hallways. Cameras are also placed to monitor the playground areas of campus. Hallways are also monitored. Admin staff is able to monitor cameras throughout the day from their office. All visitors receive a badge or sticker to signify that they did check in, and they are required to check out when leaving. Classroom teachers, support staff and instructional aides provide supervision in the cafeteria and on the yard before school, during lunch and during all recess times. Polk Elementary uses data collected from its annual parent survey to help identify possible areas of concern. We also participate in a site safety walk annually with district personnel. Staff members participate in the dismissal process, and are visible in front of the school during this time.

Strategies and Programs to Provide and Maintain a High Level of Safety (EC 32281(a)1, items A-J)

Polk Elementary Schools foundation for safety is embedded in our Positive Behavior Intervention and Support (PBIS) system. All students learn what it means and looks like to "Strive for 5" at Polk. All Pioneers are reminded daily to Be Respectful, Be Safe, Work Peacefully, Strive for Excellence, and Follow Directions. Each morning as a school we recite our Polk Pledge. This pledge is a daily reminder of the types of behaviors and choices we commit to making during the course of our day. Polk also has implemented "Stop, Walk and Talk" bully prevention and messages a "hands off" school with all students. Each year Polk students and staff celebrate and participate in "Passport Days." During this time each grade level observes and discusses what positive behavior looks like in multiple locations on campus to intentionally review what it looks like to Strive for 5 at Polk in each location. In addition students and staff celebrate and participate in Red Ribbon Week and Unite against Bullying Week. These two weeks focus on awareness and information on making safe decisions, and include assemblies such as the NED show and the Kindness Adventure to enhance the impact of the student learning.

Victim Interviews

Whenever a representative of a government agency investigating suspected child abuse or neglect or the state Department of Social Services deems it necessary, a suspected victim may be interviewed during school hours, on school premises, concerning a report of suspected child abuse or neglect that occurred within the child's home or out-of-home care facility. The child shall be given the choice of being interviewed in private or in the presence of any adult school employee or volunteer aide selected by the child. (Penal Code 11174.3)

However, it is unconstitutional for law enforcement officials to interview a student on school grounds regarding allegations of child abuse without a warrant, court order, exigent circumstances, or parent/guardian consent.

The principal or designee should request that law enforcement certify that appropriate legal authority exists and the principal maintain a record of student interviews.

A staff member or volunteer aide selected by a child may decline to be present at the interview. If the selected person accepts, the principal or designee shall inform him/her of the following requirements: (Penal Code 11174.3)

1. The purpose of the selected person's presence at the interview is to lend support to the child and enable him/her to be as comfortable as possible.

4. The selected person is subject to the confidentiality requirements of the Child Abuse and Neglect Reporting Act, a violation of which is punishable as specified in Penal Code 11167.5.

If a staff member agrees to be present, the interview shall be held at a time during school hours when it does not involve an expense to the school. (Penal Code 11174.3)

Release of Child to Peace Officer

When a child is released to a peace officer and taken into custody as a victim of suspected child abuse or neglect, the Superintendent or designee and/or principal shall not notify the parent/guardian, but rather shall provide the peace officer with the address and telephone number of the child's parent/guardian. It is the responsibility of the peace officer or agent to notify the parent/guardian of the situation. (Education Code 48906)

Peace officers shall be asked to sign an appropriate release or acceptance of responsibility form.

(cf. 5145.11 - Questioning and Apprehension)

Parent/Guardian Complaints

Upon request, the Superintendent or designee shall provide parents/guardians with a copy of the district's administrative regulation that describes how to report suspected child abuse occurring at a school site to appropriate agencies. For parents/guardians whose primary language is other than English, such procedures shall be in their primary language and, when communicating orally regarding those procedures, an interpreter shall be provided.

To file a complaint against a district employee or other person suspected of child abuse or neglect at a school site, parents/guardians may file a report by telephone, in person, or in writing with any appropriate agency identified above under "Reporting Procedures." If a parent/guardian makes a complaint about an employee to any other employee, the employee receiving the information shall notify the parent/guardian of procedures for filing a complaint with the appropriate agency. The employee also is obligated pursuant to Penal Code 11166 to file a report himself/herself using the procedures described above for mandated reporters.

(cf. 1312.1 - Complaints Concerning District Employees)

In addition, if the child is enrolled in special education, a separate complaint may be filed with the California Department of Education pursuant to 5 CCR 4650.

(cf. 1312.3 - Uniform Complaint Procedures)

Before beginning employment, employees shall sign the statement indicating that they have knowledge of the reporting obligations under Penal Code 11166 and that they will comply with those provisions. The signed statements shall be retained by the Superintendent or designee. (Penal Code 11166.5)

(cf. 4112.9/4212.9/4312.9 - Employee Notifications)

Employees who work with dependent adults shall be notified of legal responsibilities and reporting procedures pursuant to Welfare and Institutions Code 15630-15637.

The Superintendent or designee shall also notify all employees that:

1. A mandated reporter who reports a known or suspected instance of child abuse or neglect shall not be held civilly or criminally liable for making a report and this immunity shall apply even if the mandated reporter acquired the knowledge or reasonable suspicion of child abuse or neglect outside of his/her professional capacity or outside the scope of his/her employment. Any other person making a report shall not incur civil or criminal liability unless it can be proven that he/she knowingly made a false report or made a report with reckless disregard of the truth or falsity of the report. (Penal Code 11172)
2. If a mandated reporter fails to report an incident of known or reasonably suspected child abuse or neglect, he/she is guilty of a misdemeanor punishable by a fine and/or imprisonment. (Penal Code 11166)

Any confidential file of court-initiated information shall be kept until the student becomes 18, graduates from high school, or is released from juvenile court jurisdiction, whichever occurs first; it shall then be destroyed. (Welfare and Institutions Code 827)

Procedures to Maintain Confidentiality of Student Offenses

In order to maintain confidentiality when providing information about student offenses to counselors and teachers of classes/programs to which a student is assigned, the principal or designee shall send the staff member a written notification requesting him/her to review a student's file in the school office as soon as practicable. This notification shall not name or otherwise identify the student. The staff member shall be asked to initial the notification and return it to the principal or designee.

The staff member shall also initial the student's file when reviewing it in the school office. Once the district has made a good faith effort to comply with the notification requirement of Education Code 49079 and Welfare and Institutions Code 827, an employee's failure to review the file constitutes district compliance with the requirement to provide notice to the teacher.

AR 4158 EMPLOYEE SECURITY: In compliance with Education Code 49079, Administrative Regulation 4158 directs the district to notify teachers of students who have committed offenses during the previous three years which are grounds for suspension or expulsion. This information is based upon records the district maintains in the regular course of business or records received from a law enforcement agency.

This notification is accomplished in Central Unified School District by recording information about student misconduct resulting in discipline in the Aeries student database. Every discipline entry which records a suspension or expulsion under Education Code 48900 automatically triggers a Safe School Act warning date in the discipline screen. This date appears in red right above the student discipline history. Every student who receives such a warning date is then automatically tagged with a red asterisk on the Aeries ABI attendance screen. Thus, when a teacher takes roll every day, s/he is alerted by a red asterisk next to the student's name indicating that such an offense has occurred in the previous three years. The teacher can then switch over to the Aeries discipline screen to see the details of the offense. Also, when students are suspended, it appears in the attendance screen as "SUS" thus alerting the teacher to check the discipline screen for more details on the reason for the suspension. In this manner, teachers are informed of every student who has committed offenses resulting in suspension or expulsion during the previous three years.

For students who are arrested outside of school and are processed through Superior Court and Juvenile Hall, the district receives a notification from Superior Court. Student Services then sends a copy of that notification to the Principal of the school with a directive to make the information available to the student's teachers and counselor for viewing.

(E) Sexual Harassment Policies (EC 212.6 [b])

Harassment Policy

Student/Parent Procedures and Guidelines on the Prevention of Sexual Harassment and Bullying

The Central Unified School District is committed to making all campuses safe and caring places for all students. We will treat each other with respect and we will not tolerate bullying and intimidation based upon disability, gender, nationality, race or ethnicity, religion, sexual orientation, or association with a person or group with one of more of these actual or perceived characteristics.

Sexual Harassment

Definition: Sexual harassment is prohibited by Education Code 48900.2. (4 -12)

For the purposes of Central Unified School District's policy, sexual harassment is defined as:

The unwelcome advances of a sexual nature, request for sexual favors, and other verbal, visual, or physical conduct perceived to be of a sexual nature.

Prevention/Intervention: Awareness of what sexual harassment is and its impact, as well as how it is to be dealt with, will take place through education and reinforcement of socially-appropriate behavior. Students in grades 4-6 will attend an assembly at the beginning of each semester to review the Code of Conduct.

Reporting Methods:

- If a parent/guardian of a student believes that the student has been subjected to sexual harassment, he or she should bring the matter to the attention of a staff member. This should be done in writing.
- Every student who experiences sexual harassment is encouraged to report it to a staff member immediately.
- Any staff member of Central Unified School District who receives a student report of sexual harassment shall notify the office as soon as possible, but no later than the close of the school day.

Action:

- When incidents of sexual harassment or intimidation are verified, action must be taken that is designed to create a learning experience, and ensure that the prohibition against sexual harassment is enforced. The emphasis is on providing support for the student who has been harassed as well as supporting the student bullying by working with them to modify their behavior. Positive intervention that demonstrates appropriate behavior is a key component of this support.
- Sexual Harassment can take many forms and can vary dramatically in its seriousness, and its impact on the victim and other students. Conduct that rises to the level of sexual harassment as defined above will warrant disciplinary action in accordance with the School Discipline Plan and law enforcement may be contacted.
- Students who repeatedly engage in sexual harassment will be recommended for suspension or expulsion, revocation of transfer, and referral to the local law enforcement authorities.

(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

BP 5132 (a) District Dress Code Policy

The Governing Board believes that appropriate dress and grooming contribute to a productive learning environment. The Board expects students to give proper attention to personal cleanliness and to wear clothes that are suitable for the school activities in which they participate. Students' clothing must not present a health or safety hazard or a distraction which would interfere with the educational process. The Governing Board believes that education is one of the most important functions of state and local governments and that only by integrating children of various races, colors, cultural, ethnical and environmental backgrounds can the public schools become the effective "marketplace of ideas" for the benefit of all students. Common sense dictates that some uniform regulations are necessary in order to maintain order, spirit, scholarship, pride, and discipline in the operation of such a school district.

The Governing Board recognizes that students' mode of dress and grooming is a manifestation of their personal style and individual preference. The Board will not interfere with the right of students and their parents to make decisions regarding appearance, except when choices affect the educational program of the schools. It is recognized that any apparel which draws undue attention to the wearer tends to detract from the education process and is therefore inappropriate. Good taste and good grooming are a part of learning for all students. It is the mark of maturity when students can freely choose apparel that demonstrates individuality without deviating from the standard of appropriateness. Students and parents/guardians shall be informed about dress and grooming standards at the beginning of the school year and whenever these standards are revised. A student who violates these standards shall be subject to appropriate disciplinary action.

Gang-Related Apparel

The Governing Board will establish a reasonable dress code that prohibits students from wearing gang-related apparel when there is evidence of a gang presence that disrupts or threatens to disrupt the school's activities. Such a dress code will be included as part of the District safety plan and must be presented to the Board for approval. The Board shall approve the plan upon determining that it is necessary to protect the health and safety of the school's students.

The Governing Board will require school principals to develop a school spirit attire plan, i.e. designated plaid, logo shirts, etc., and include in their site annual student/parent handbooks. All coaches will establish consistent dress for athletes on game days.

The Governing Board will annually receive AR 5132 six months before each new school year as an information item and direct staff to communicate any changes to the public through school newsletters and other related vehicles.

AR 5132 Dress Code

STUDENTS

Dress and Grooming (K-12)

In cooperation with teachers, students and parents/guardians, the Governing Board shall establish rules governing student attire which are consistent with law, Governing Board policy and administrative regulations. These school dress codes shall be regularly reviewed.

(cf. 0420 - School Plans/Site Councils)

Each school shall allow students to wear sun-protective clothing, including but not limited to hats, for outdoor use during the school day. (Education Code 35183.5)

- A. School is a place where the best possible educational environment must be created and maintained. Appropriate dress and grooming are necessary in order to maintain order, provide a safe school environment, and promote discipline. The Board of Trustees encourages pupils to dress appropriately for school. The Board believes that pupils should be neatly and cleanly dressed. Dress or grooming that draws undue attention to the wearer or detracts from the educational process is unacceptable.
- B. The Board finds that gangs, gang-related apparel, and gang-related activities create a clear and present danger of disrupting the educational process and create a hazard to the health and safety of the school environment. These regulations prohibit the wearing or displaying of gang related apparel, insignia, or other gang identifiers. The Board finds that such regulations are necessary for the health and safety of the school environment. As used in these regulations, a "gang" is two or more people who form an allegiance for a common purpose which includes engaging in, individually or collectively, a pattern of acts that may be threatening, disruptive, or criminal, and which may include such behavior as intimidation, threats, or violence. Gang related apparel" is defined as any item of clothing, accessory, jewelry, or manner of grooming which, by virtue of its color, arrangement, trademark or other attribute, denotes membership in or affiliation with gangs.
- C. This dress code applies to both sexes and will be enforced at school sites, at school functions, and on school buses. The dress code is adopted to promote standards of dress and grooming that promote a safe school setting conducive to a positive learning environment. These regulations are intended to prohibit student dress or grooming practices which:
 - (1) present a hazard to the health or safety of the student or others;
 - (2) interfere with school work, create disorder, or disrupt the educational program;
 - (3) cause excessive wear or damage to school property;
 - (4) prevent the student from achieving educational objectives (e.g., blocked vision or restricted movement);
 - (5) incite pupils so as to create a clear and present danger of school disruption or the commission of unlawful acts;
 - (6) conflict with this Board's philosophy and goals on the prevention of drug abuse and gang activity.
- D. Nothing in this code is to be interpreted to limit the District's responsibility and obligation to enforce unique safety and health requirements (e.g., shop and food situations). Based on the premise that certain ways of dress can be a safety and/or health hazard and can also be a distraction from learning, the following policy on dress will be in effect throughout Central Unified School District. Please note that this dress code is for both sexes, and it will be enforced consistently and fairly at school and at all school sponsored functions and events.
 - (1) Pupils must dress safely. For example, shoes must be worn at all times at school or during school hours.
 - A. Clothes shall be no more than one size larger or one size smaller than the student's regular clothing size. Shirts may not hang beyond mid thigh.
 - B. All clothing must be worn as its design was traditionally intended.

- C. Clothes shall be clean so as not to promote unhealthy or unsanitary conditions. Clothing must be in good condition and not showing excessive wear or exposing skin.
- D. Dresses, skirts, skorts, and shorts must be at least mid-thigh lengths. Shorts can only be a maximum of six inches above the knee (shortest) and/or finger length. No spaghetti strap dresses or tops allowed unless there is an approved top underneath or over; must have appropriate neckline. Students, who participate in pep and cheer, when required by their advisor to wear their uniforms, may wear their cheer outfits without violation of this provision.
- E. Clothes must be sufficient to conceal undergarments at all times. Underwear-type sleeveless shirts, see-through, fishnet, or other attire which exposes the body in a sexually suggestive manner, bare midriffs, tube tops, tank tops, or halter tops, etc. are not acceptable. Shoulder straps on tops worn by females must not be less than two inches (2") in width, and any apparel determined by District personnel to be too revealing is not acceptable.
- F. Outerwear may be sweatshirts, sweaters, or jackets only. No shirts may be worn as outerwear. Designer sweatshirts/sweatpants (running outfits) are acceptable.
- G. Bib overalls and shortalls must have both straps attached to the front of the garment as designed.

- H. No leggings or tights may be worn unless they are worn beneath dresses, skirts, skorts, shorts, or culottes.
- I. Hats and specified caps (such as baseball caps, watch caps, winter knit caps, and beanie style caps) may be worn as sun-protective clothing while outdoors. Hats and caps may also be worn to protect against inclement weather. The school may regulate the type of hat and cap as to colors and designs to comply with other Central Unified School District Dress Code guidelines. Hats must be worn facing forward and must not be worn inside school facilities or in classrooms (refer to Dress and Grooming (K-12)
(C.) This dress code applies to both sexes and will be enforced at school sites, at school functions, on school buses and at all school related activities). Students and parents are advised to consult with the administration at the school of attendance in this regard, prior to purchasing or wearing hats and caps.
- J. Bandanas are not allowed.

 - 1. Clothing and jewelry shall be free of writing, pictures, or any other insignia which are crude, vulgar, profane, obscene, libelous, slanderous, or sexually suggestive. Clothing or jewelry that advocate racial, ethnic, or religious prejudice, or other unlawful acts, or the use of tobacco, drugs, or alcohol are prohibited.
 - a. Clothing that depicts college or professional sport logos/mascots is
 - i. prohibited.(e.g. C.S.U.F. Bulldogs, Georgetown, Hoyas, Raiders, etc. attire is not allowed.). Clothing that depicts the names, insignias, or logos associated primarily with college or university academic programs and is not associated with gangs or otherwise conflict with the standards of acceptable apparel is permitted (e.g. C.S.U.F., Stanford, Harvard, etc.).
 - b. Backpacks shall be neat, clean, and free of any student writing except
 - i. students proper name may be displayed once for identification purposes.
 - 2. Earrings are to be worn in ears only. No facial or tongue piercing is allowed.

 - 5. Pupils shall not display any material or paraphernalia which incites a disruption of the school process or creates a clear and present danger of either the commission of unlawful acts on school premises or the violation of District or school site policies or rules.
 - 6. Gang-related apparel or paraphernalia, including symbols, emblems, insignias, or other gang identifiers, may not be worn or displayed. This rule prohibits the presence of any apparel, jewelry, accessory, notebook, or manner of grooming which, by virtue of its color, arrangement, trademark, or other attribute denotes membership in or affiliation with gangs. In case of doubt as to whether an item is gang related, the principal or designee will consult with law enforcement or other school personnel with expertise in gangs.
 - 7. Any apparel, hairstyle, cosmetics, accessory, or jewelry, even if not specifically mentioned above, that creates a safety or health concern or tends to detract from the education process, is prohibited.
 - 8. All tattoos must be covered at all times.

Limited written exceptions to the district dress code policy may be made by the principal for special days, special events, or other unusual circumstances. (G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)

Procedures for Safe Ingress and Egress:

Beyond planning for daily ingress/egress routes and emergency evacuation routes, schools must plan for assisting students, staff and visitors with disabilities. Under the Americans with Disabilities Act of 1990, individuals who are deaf/hard of hearing, blind/partially sighted, mobility impaired and/or cognitively/emotionally impaired must be assisted.

- A. Schools must include plans for: Identifying the population of people with disabilities, determining proper signage and equipment, training staff to assist individuals with disabilities, and coordinating with emergency response personnel.
- B. Planning: It is recommended that schools identify the location of potential evacuation sites based on the potential circumstances that may cause movement/relocation of the school population in the event of an emergency.
- C. On-Campus Evacuation/Assembly Location: Review your school site layout and determine where the safest outdoor location is on campus to assemble your students and staff. (See map below)
- D. Off-Campus Evacuation/Assembly Location: Determine if there is a facility close to your school that can potentially house your staff and student body. Develop safe route to site(s).

- E. Prior to an event: a) Identify off-campus evacuation sites, b) Establish a memorandum of agreement with the evacuation site(s). c) Provide the addresses of at least two off-campus locations that have agreed to provide an assembly area for your school population.

(J) Hate Crime Reporting Procedures and Policies

James K. Polk Elementary School's Bullying Prevention Policies/Programs

Polk Elementary School instructs and models for our students how to "Stop, Walk and Talk". Pioneers are taught how to tell someone to "Stop", what it looks like to "Walk" away, and how they then need to "Talk" to a staff member and tell them what happened. Polk participates in a "Unite Against Bullying Week" that includes in class instruction that includes a review of our school wide bully prevention policy and a role play. This helps teach students to identify and understand the different roles that people play in a bully situation. Pioneers unite against bullying by wearing orange on one of the days during the prevention week. Pioneers have a "bully box" in the office that students know is there for them to report an act of bullying. The NED Show provides assemblies to support anti-bully instruction.

Harassment Policy

Student/Parent Procedures and Guidelines on the Prevention of Hate Violence, Sexual Harassment and Bullying

The Central Unified School District is committed to making all campuses safe and caring places for all students. We will treat each other with respect and we will not tolerate bullying and intimidation based upon disability, gender, nationality, race or ethnicity, religion, sexual orientation, or association with a person or group with one of more of these actual or perceived characteristics.

Hate Violence

Definition: Hate violence is in violation of Education Code 48900.3. It is defined as the willful interfering with or threatening of another person's personal or property rights because of race, ethnicity, national origin, religion, disability, or sexual orientation. Verbal threats of violence when the perpetrator has the ability to carry out the threat are also considered acts of hate violence.

Prevention/Intervention: Awareness of what hate violence is and its impact, as well as how it is to be dealt with, will take place through education and reinforcement of socially-appropriate behavior. Students will attend an assembly at the beginning of each semester to review the Code of Conduct.

Reporting Methods:

- If a parent/guardian of a student believes that the student has been subjected to hate violence, he or she should bring the matter to the attention of a staff member. This may be done verbally or in writing.
- Every student who experiences, or is a witness to hate violence is encouraged to report it to a staff member
- Any staff member of Central Unified School District elementary schools who witnesses an act of hate violence or receives a student report of hate violence shall notify the site principal as soon as possible, but no later than the close of the school day.

Action:

- When incidents of hate violence are verified, action must be taken that is designed to create a learning experience, and ensure that the prohibition against hate violence is enforced. The emphasis is on providing support for the student who has been the victim as well as supporting the student engaged in hate violence by working with them to modify their behavior. Positive intervention that demonstrates appropriate behavior is a key component of this support.

- Hate violence can take many forms and can vary dramatically in its seriousness, and its impact on the victim and other students. Accordingly, there is no one prescribed response to verified acts of hate violence. Conduct that rises to the level of hate violence as defined above will warrant disciplinary action in accordance with the Central Unified School District Discipline Plan.
- Students who engage in hate violence will be recommended for further intervention, school disciplinary action which may lead to suspension or expulsion, revocation of transfer, and/or a referral to the local law enforcement authorities.

Safety Plan Appendices

Site Communications Plan Reminder:

In the event the internet is not operational, preventing site based communication via intercom, internet or district telephone systems (V.O.I.P.), the following methods of communication should be utilized:

- 1) Radios – It is recommended that every classroom have a radio, or a radio be placed in pods at all school sites. The cost of purchasing additional radios to make sure you have sufficient campus coverage is the responsibility of each site.
- 2) Cell Phones - As recommended in your School Site Safety Plan, all key safety plan staff have each other's cell phone numbers.
- 3) PhoneTree - As recommended in your School Site Safety Plan, you should have a phone tree with each staff member's personal cell phone number in case the above school site communication systems are not functioning. The utilization of a phone tree will provide a prompt, expedited method of communication.
- 4) Please consider utilizing one of the various applications available via the internet that allow you to communicate with all of your teachers via their cellular phones through the typing of one message, i.e. Remind.

This memorandum is to be added to your School Site Safety Plan. Additionally, it should be shared with staff and incorporated as a part of your safety plan trainings throughout the school year.

James K. Polk Elementary School Incident Command System

Incident Command Team Responsibilities

Standardized Emergency Response Management System Overview

The California Standardized Emergency Management System (SEMS) is designed to centralize and coordinate emergency response through the use of standardized terminology and processes. This greatly facilitates the flow of information and resources among the agencies participating in response to an emergency. SEMS consists of five functions:

Management

During an emergency, the Incident Commander directs response actions from a designated Command Post. To effectively do this, the Incident Commander must constantly assess the situation, and develop and implement appropriate strategies. The Incident Commander must be familiar with the available resources, accurately document all response actions, and effectively communicate response strategies to others participating in the response. This function is typically filled by the school principal. The principal is assisted in carrying out this function by a Public Information & Liaison Officer and Safety Officer.

Planning & Intelligence

Planning and Intelligence involves the use of various methods to efficiently gather information, weigh and document the information for significance, and actively assess the status of the emergency. This understanding and knowledge about the situation at hand is vital to the effective management of a response. These activities are performed by a single person who reports directly to the Incident Commander.

Operations

All response actions are implemented under by Operations. This includes staff performing first aid, crisis intervention, search and rescue, site security, damage assessment, evacuations, and the release of students.

Logistics

Logistics supports the response by coordinating personnel; assembling and deploying volunteers; providing supplies, equipment, and services; and facilitating communications among emergency responders.

Finance & Administration

Finance & Administration involves the purchasing of all necessary materials, tracking financial records, timekeeping for emergency responders, and recovering school records following an emergency. These activities are performed by a single person who reports directly to the Incident Commander.

Emergency Response Guidelines

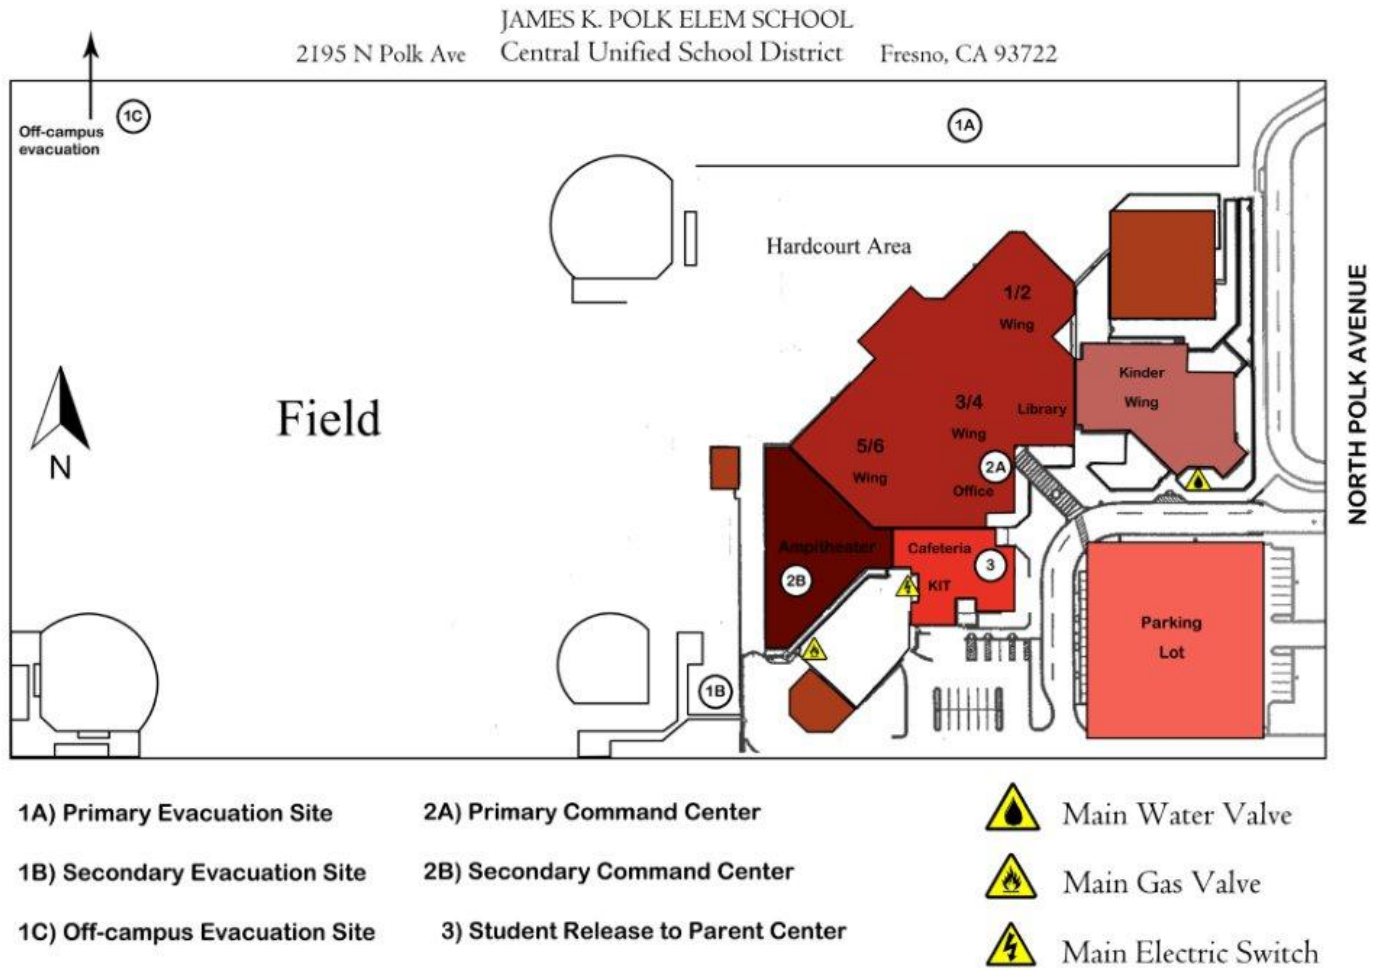

Step One: Identify the Type of Emergency

Step Two: Identify the Level of Emergency

Step Three: Determine the Immediate Response Action

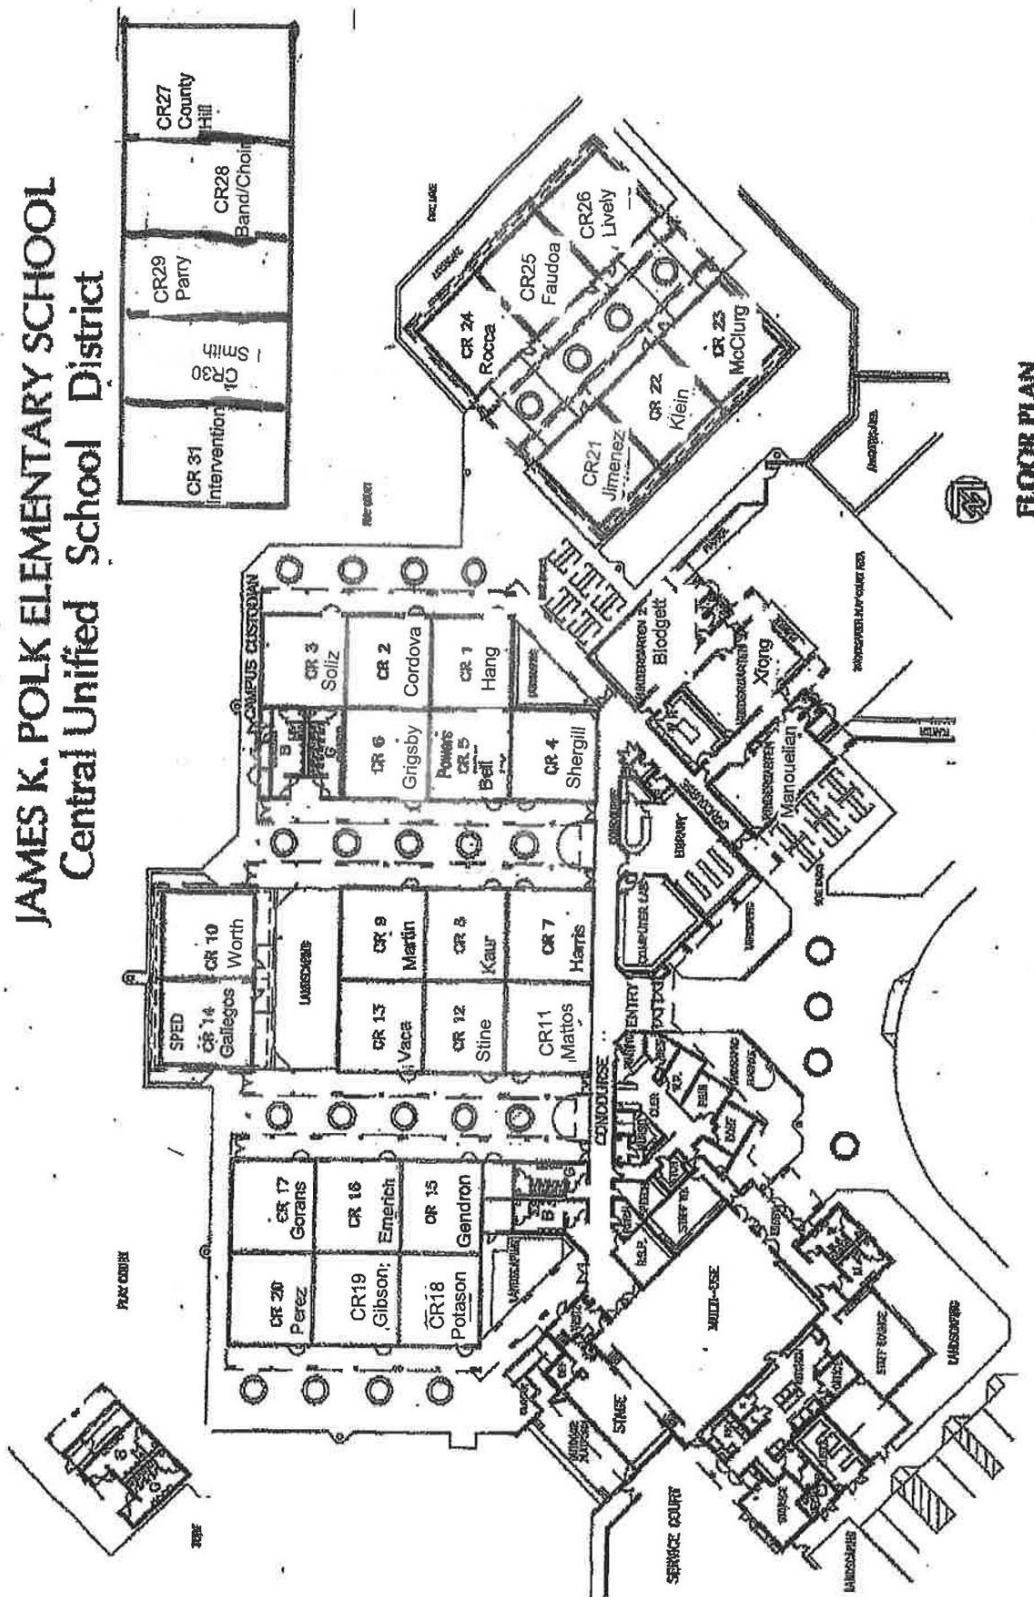

Step Four: Communicate the Appropriate Response Action

1.0 INTRODUCTION

1.1 OVERVIEW

State law requires that schools be adequately prepared to respond to earthquakes, fires, and other emergencies (California Education Code § 35295 through § 35297, California Government Code § 8607, and California Code of Regulations § 2400 through § 2450). To assist schools in complying with these requirements, the Central Unified School District has adopted the Model Safe School Plan, Emergency Procedures (02-01-05) for use as a template in the preparation of emergency procedures for each of the District schools. Per District policy, the Superintendent or designee shall use state-approved Standardized Emergency Management System (SEMS) guidelines and the National Incident Command System (NIMS) when updating district and site-level emergency and disaster preparedness plans (CUSD BP 3516 Business and Noninstructional Operations). The emergency management teams and procedures outlined in this plan are consistent with both SEMS and NIMS, however SEMS will serve as the primary reference throughout this document. This plan presents specific procedures to be used in preparing for, and responding to, school emergencies.

1.2 PLAN ORGANIZATION

The effective management of emergencies requires both adequate emergency preparedness and emergency response capabilities. This plan is organized into six sections. Section 2 deals with emergency preparedness, identifies the school's emergency response teams and defines the roles and responsibilities of team members. Sections 3.0 and 4.0 present guidance for determining the nature and extent of an emergency, and a series of initial response actions to be taken in an emergency. Section 5.0 provides detailed emergency response procedures for 18 types of emergencies that may be encountered in a school setting. Section 6.0 provides supplemental emergency information including contact information, supply lists and evacuation routes. Standard forms, site maps and other supporting information are contained in the Appendices.

The Principal will ensure that this Safe School Plan, - Emergency Procedures is consistent with District Board Policy 0450 and SEMS, and that the plan addresses the following eighteen emergencies: aircraft crash; aircraft landing, animal disturbance; armed assault on campus; biological or chemical release; bomb threat; bus disaster; disorderly conduct; earthquake; explosion/risk of explosion; fire in surrounding area; fire on school grounds; flooding; loss or failure of utilities; motor vehicle crash; psychological trauma, suspected contamination of food or water; threat of violence; and unlawful demonstration/walkout.

2.0 STANDARDIZED EMERGENCY MANAGEMENT

2.1 Emergency Planning with SEMS

The California Standardized Emergency Management System (SEMS) is designed to centralize and coordinate emergency response through the use of standardized terminology and processes. This greatly facilitates the flow of information and resources among the multiple agencies often participating in response to an emergency. SEMS consists of the following five functions: Management; Planning/Intelligence; Operations; Logistics; and Finance/Administration.

2.1.1: Management

During an emergency, the Incident Commander is responsible for directing response actions from a designated Command Post. To effectively direct response actions, the Incident Commander must constantly assess the situation and develop and implement appropriate strategies. The Incident Commander must be familiar with the available resources, accurately document all response actions, and effectively communicate response strategies to others participating in the response. This function is typically directed by the Principal, as the Incident Commander. The Principal is assisted in carrying out this function by a Public Information Officer, Safety Coordinator, and Agency Liaison.

2.1.2: Planning/Intelligence

During an emergency, SEMS Planning and Intelligence involves the use of various methods to efficiently gather information, weigh and document the information for significance, and actively assess the status of the emergency. This understanding and knowledge about the situation at hand is vital to the effective management of a response. Under SEMS, this function is supported by two staff members, one involved with “Documentation” and the other with “Situation Analysis.” In Central Unified School District schools, “Situation Analysis” may be performed by a “Communications” position. Both of these positions, if assigned at the discretion of the Principal, will report directly to the Incident Commander (Principal) unless a Planning/Intelligence Chief is assigned.

2.1.3: Operations

Under SEMS, all emergency response actions are implemented under the Operations function. This function is supported by staff performing first aid, crisis intervention, search and rescue, site security, damage assessment, evacuations, and the release of students to parents. Within Central Unified School District, these activities are performed by the following teams, under the direct supervision of the Incident Commander (Principal), unless an Operations Chief is assigned: First Aid/Medical Team; Security/Utilities Team; Assembly Area Team; Psychological First Aid Team; Supply/Equipment Team; Request Gate Team; Reunion Gate Team; Fire Suppression/HazMat Team; and Search and Rescue Teams.

2.1.4: Logistics

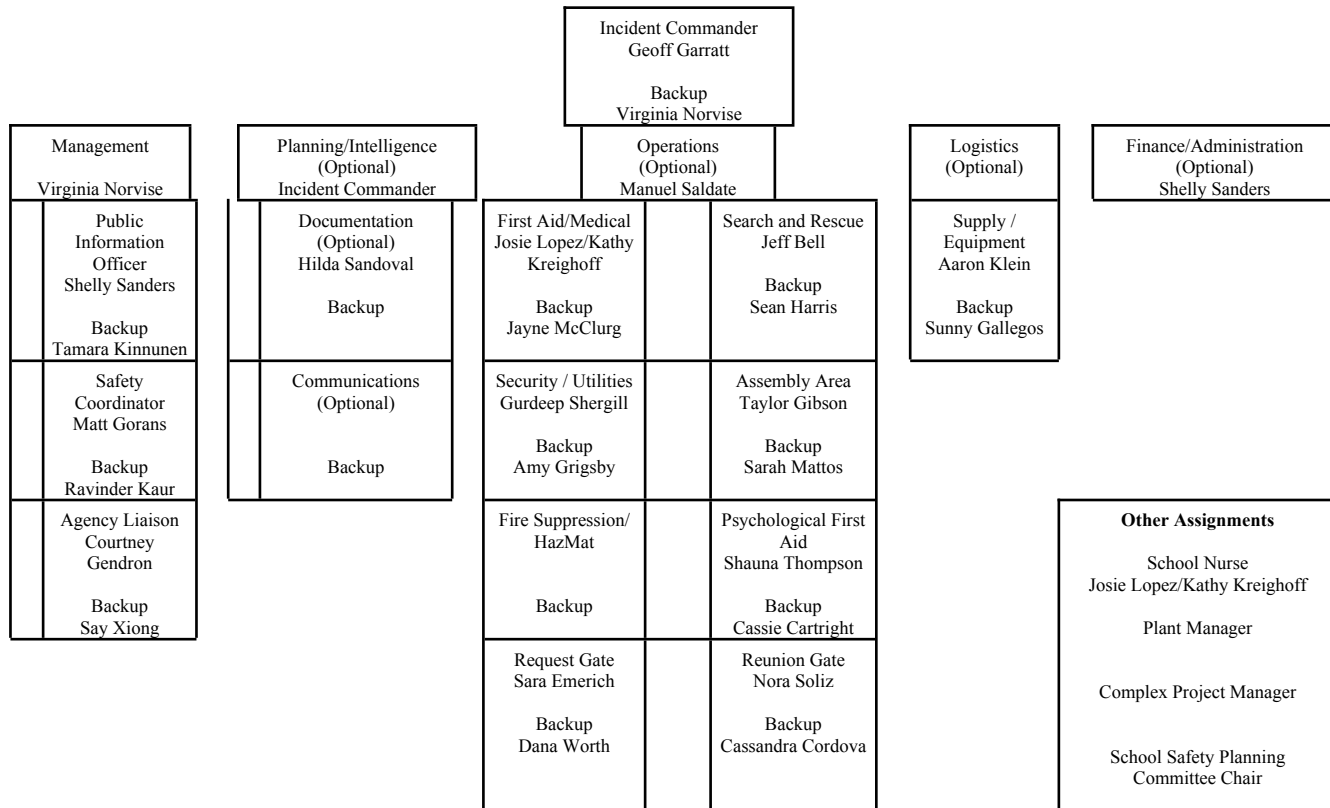

The Logistics function of SEMS supports emergency operations by coordinating personnel; assembling and deploying volunteer teams; providing supplies, equipment, and services; and facilitating communications among emergency responders. Within Central Unified School District, these activities are performed by the Security/Utilities Team and the Supply/Equipment Team both of which report directly to the Incident Commander unless a Logistics Chief is assigned.

2.1.5: Finance/Administration

The Finance/Administration function of SEMS involves the purchasing of all necessary materials, tracking financial records, timekeeping for emergency responders, and recovering school records following an emergency. Within Central Unified School District, these activities may be performed by a “Documentation” position which reports directly to the Incident Commander unless a Finance/Administration Chief is assigned.

Figure 2.1 presents an Emergency Management Organization Chart modeled after SEMS and adapted for Central Unified School District schools.

FIGURE 2-1: EMERGENCY MANAGEMENT ORGANIZATION CHART

2.16 PREPAREDNESS PROCEDURES

2.16.1: Management

1. The Principal will annually conduct an Emergency Hazard Assessment to evaluate unique site characteristics and conditions in the adjoining community that could cause an emergency incident. The Emergency Hazard Assessment Summary (Form A, Appendix A) should be used for this purpose.
2. The Principal will designate primary and secondary Command Post locations and ensure that these locations are identified in Section 2.0.
3. The Principal will ensure effective communication between the Command Post and Team Section Chiefs during an emergency. These procedures will be included in the Section 2.0.
4. The Principal will ensure that members of the Incident Command Team (Public Information Officer, Safety Coordinator, and Agency Liaison), and all other team leaders and members are aware of their responsibilities and assignments as defined in this section.
5. The Principal will ensure that emergency response actions are properly documented as they occur, and that appropriate procedures are included in this plan.

2.16.2: Planning/Intelligence

1. The Principal will ensure that all team members receive proper training in the use of communication equipment.
2. The Principal will ensure all teams are provided with instructions for the use and maintenance of maps and “status boards” at the Command Post.

2.16.3: Operations

1. The Principal will ensure that this plan includes procedures for the following:
 - Administering first aid;
 - Activating and performing search and rescue operations;
 - Ensuring site security;
 - Conducting damage assessments;
 - Evacuation; and
 - Student release operations.

2.16.4: Logistics

1. The Principal will ensure this plan includes appropriate procedures for coordinating and assembling personnel and volunteers in the event of an emergency.
2. The Principal will ensure that adequate emergency supplies are maintained and readily available for emergency use. Please refer to Section 2.0 for a list of supplies for each emergency team and Section 6.6 for the schools' emergency supplies.

2.16.5: Finance/Administration

The Principal will assure the following:

1. Purchase of all required emergency preparedness and response equipment and supplies;
2. Tracking of emergency expenditures and recovery of records damaged or lost in an emergency.

3.0 INITIAL RESPONSE TO EMERGENCIES

When an emergency situation occurs, school personnel must quickly determine what initial response actions are required. Determining the appropriate actions to take is a three-step process: 1) identify the type of emergency; 2) identify the level of emergency; and 3) determine immediate action(s) that may be required. Each of these steps is discussed in the following sections. Procedures for specific response actions are provided in Sections 4.0 and 5.0.

3.1 IDENTIFY TYPE OF EMERGENCY

The first step in responding to an emergency is to determine the type of emergency that has occurred. Emergency procedures for the 18 different types of emergencies listed below are provided in Section 5.0.

- Aircraft Crash
- Animal Disturbance
- Armed Assault on Campus
- Biological or Chemical Release
- Bomb Threat
- Bus Disaster
- Disorderly Conduct
- Earthquake
- Explosion/Risk of Explosion
- Fire in Surrounding Area
- Fire on School Grounds
- Flooding
- Loss or Failure of Utilities
- Motor Vehicle Crash
- Psychological Trauma
- Suspected Contamination of Food or Water
- Threat of Violence
- Unlawful Demonstration/Walkout

3.2 IDENTIFY LEVEL OF EMERGENCY

The second step in responding to an emergency is to determine the level of the emergency. For schools, emergency situations can range from a small fire to a major earthquake. To assist schools in classifying emergency situations, a three-tiered rating system is described below.

Level 1 Emergency:

A minor emergency that is handled by school personnel without assistance from outside agencies, e.g., a temporary power outage, a minor earthquake, or a minor injury in the play yard.

Level 2 Emergency:

A moderate emergency that requires assistance from outside agencies, such as a fire or a moderate earthquake, or a suspected act of terrorism involving the dispersion of a potentially hazardous material, e.g., “unknown white powder”.

Level 3 Emergency:

A major emergency event that requires assistance from outside agencies such as a major earthquake, civil disturbance or a large-scale act of terrorism. For Level 3 emergencies, it is important to remember that the response time of outside agencies may be seriously delayed.

3.3 DETERMINE IMMEDIATE RESPONSE ACTIONS

Once the type and extent of an emergency have been identified, school personnel can determine if an immediate response action is required. The most common immediate response actions initiated during school emergencies are:

- Duck and Cover
- Shelter-In-Place
- Lock Down
- Evacuate Building
- Off-Site Evacuation
- All Clear

Procedures for each of these are included in Section 4.0.

4.0 IMMEDIATE RESPONSE ACTIONS

4.1 DUCK AND COVER

This action is taken to protect students and staff from flying or falling debris.

Description of Action

1. The Principal will make the following announcement on the PA system. If the PA system is not available, the Principal will use other means of communication, i.e., sending messengers to deliver instructions. The Principal should be calm, convey reassuring comments that the situation is under control and give clear directions.

“YOUR ATTENTION PLEASE. AS YOU ARE AWARE, WE ARE EXPERIENCING SOME SEISMIC ACTIVITY. FOR EVERYONE’S PROTECTION, ALL STUDENTS SHOULD FOLLOW STAFF DUCK AND COVER PROCEDURES, WHICH MEAN YOU SHOULD BE IN A PROTECTED POSITION UNDER A TABLE OR DESK, AWAY FROM WINDOWS AND ANYTHING THAT COULD FALL AND HURT YOU. HOLD THIS POSITION UNTIL THE SHAKE STOPS OR GIVEN FURTHER INSTRUCTIONS.”

2. If inside, teachers will instruct students to duck under their desks and cover their heads with their arms and hands.
3. If outside, teachers will instruct students to drop to the ground, place their heads between their knees, and cover their heads with their arms and hands.
4. Teachers and students should move away from windows.

4.2 SHELTER IN-PLACE

This action is taken in order to keep students and staff members indoors to provide a greater level of protection from any outside threats to the campus (which includes off campus police activity, a suspicious person or parent on campus, airborne contaminants in outside air and threatening animals or insects on school grounds). Shelter-in-Place is used during critical situations in which students/staff are asked to immediately enter a classroom, close locked classroom doors, turn off lights and wait for further instructions. Shelter-in-Place may be used as a tool in a law enforcement emergency situation that hasn’t elevated itself to a Lockdown scenario.

Description of Action

1. An administrator will make an announcement on the PA system when an incident on or near the campus has occurred that requires students/staff to secure themselves in a classroom. If the PA system is not available, they will use other means of communication to deliver instructions. The administrator should be calm, convey reassuring comments that the situation is under control and give clear directions. (Note: Staff members also have the ability to initiate Shelter-in-Place procedures when observing an incident that requires students/staff to secure themselves in a classroom, but has not elevated to a LOCKDOWN as described in section 4.3. The following is an example of a PA announcement staff members may make to alert others; “SHELTER-IN-PLACE, SHELTER-IN-PLACE, THIS IS (YOUR NAME) IN (YOUR LOCATION).” At that time, site administration will follow up with that staff member to obtain more information about the issue that prompted the initiation of the Shelter-in-Place call.) In an incident that allows teachers to continue instruction but requires students/staff to remain secure in a classroom, administrators may use the following PA announcement; “YOUR ATTENTION PLEASE. BECAUSE WE HAVE RECEIVED INFORMATION REGARDING A HAZARD IN THE COMMUNITY, WE ARE INSTITUTING SHELTER-IN-PLACE PROCEDURES. REMEMBER, THIS MEANS STUDENTS AND STAFF ARE TO REMAIN INSIDE THE BUILDING, WINDOWS AND DOORS SECURELY CLOSED AND LOCKED. ALL STUDENTS AND STAFF THAT ARE OUTSIDE ARE TO IMMEDIATELY MOVE TO THE PROTECTION OF AN INSIDE ROOM. AS SOON AS WE HAVE FURTHER INFORMATION, WE WILL SHARE IT WITH YOU.” Additional information that may be provided in an announcement similar to this includes; teachers can continue instruction, turn off air conditioner units, or remain in secured in classroom until further information.
2. After the Shelter-in -Place announcement is made, teachers will immediately discontinue instruction, keep students in the classroom, close locked classroom doors and turn off lights.
3. If outside, students will proceed to their classrooms if it is safe to do so. If not, teachers or staff will direct students into nearby classrooms or school buildings (e.g., auditorium, library, cafeteria, and gymnasium). Teachers should consider the location and proximity of the identified hazard and if necessary, proceed to an alternative indoor location.
4. When reasonable and if the situation permits it, direction will be given to staff to either allow for classroom instruction to resume, or that a Lockdown must be implemented due to the increased magnitude of the threat.
5. Staff and students will remain in the classroom or secured area until further instructions are given by an administrator or law enforcement.
6. During an airborne contamination incident, teachers are responsible to secure individual classrooms. The Security/Utilities Team will assist in completing additional shut down procedures as needed in other areas: securing building-wide HVAC

systems and fans in the area, closing and locking doors and windows, sealing gaps under doors and windows with wet towels or duct tape, sealing vents with aluminum foil or plastic wrap and turning off sources of ignition, such as pilot lights.

4.3 LOCKDOWN

This action is taken when the threat of violence is identified, or when directed by law enforcement. Students are to remain in the classrooms or designated locations at all times until directed otherwise by school administrators, staff or law enforcement.

Description of Action

1. An administrator or staff member will make the announcement of a LOCKDOWN.” If the PA system is not available, they will use other means of communication to deliver instructions. Once the directive is initiated staff members are to implement the “RUN, HIDE, ACT” protocol. When the “LOCKDOWN” is implemented it is important for staff members to assess their surroundings and if practical to check for children or staff in the hall in the immediate area and provide shelter. Staff members should immediately discontinue classroom instruction, close locked classroom doors and turn off lights.
2. At a reasonable time, information about the activity that prompted the “LOCKDOWN” should be disseminated to assist staff members in implementing appropriate counter measures.
3. Staff and students should remain barricaded in their classroom or secured area until further instructions are given by an administrator or law enforcement. If the situation becomes life-threatening, and/or staff individually feels that it is unsafe to remain in the classroom or building, staff is to follow the Description of Action in section 4.7 item 1 for “RUN”, and report their status to site administration as soon as it is safe to do so.

4.4 EVACUATE BUILDING

This action is taken after the decision is made, and/or staff individually feels that it is unsafe to remain in the building. If the latter is true and staff evacuates on their own, staff are to follow the Description of Action in section 4.7 item 1 for “RUN”, and report their status to site administration as soon as it is safe to do so.

Description of Action

1. An administrator may wish to use the following announcement on the PA system. If the PA system is not available, they will use other means of communication to deliver instructions. The administrator should be calm, convey reassuring comments that the situation is under control and give clear directions.
“YOUR ATTENTION PLEASE. WE NEED TO INSTITUTE AN EVACUATION OF ALL BUILDINGS. TEACHERS ARE TO TAKE THEIR STUDENTS TO THE ASSEMBLY AREA AND REPORT TO THEIR DESIGNATED AREA. STUDENTS ARE TO REMAIN WITH THEIR TEACHER. TEACHERS NEED TO TAKE THEIR ROLLBOOK AND LOCK THE CLASSROOM WHEN ALL STUDENTS HAVE EXITED THE CLASSROOM.”
2. Teachers will instruct students to evacuate the building, using designated routes, and assemble in their assigned Assembly Area.
3. Teachers will take the student roster when leaving the building and take attendance once the class is assembled in a safe location.
4. Once assembled, teachers and students will stay in place until further instructions are given.

4.5 OFF-SITE EVACUATION

This action is taken after a decision is made, and/or staff individually feels that it is unsafe to remain on the campus, and evacuation to an off-site assembly area is required. If the latter is true and staff evacuates on their own, staff are to follow the Description of Action in section 4.7 item 1 for “RUN”, and report their status to site administration as soon as it is safe to do so.

Description of Action

1. An administrator may wish to use the following announcement on the PA system. If the PA system is not available, they will use other means of communication to deliver instructions. The administrator should be calm, convey reassuring comments that the situation is under control and give clear directions.
“YOUR ATTENTION PLEASE. WE NEED TO INSTITUTE AN OFF-SITE EVACUATION. TEACHERS ARE TO TAKE THEIR STUDENTS TO THE OFF-SITE ASSEMBLY AREA AND REPORT TO THEIR DESIGNATED AREA. STUDENTS ARE TO REMAIN WITH THEIR TEACHER. TEACHERS NEED TO TAKE THEIR ROLLBOOK AND LOCK THE CLASSROOM WHEN ALL STUDENTS HAVE EXITED THE CLASSROOM.”
2. The Principal will determine the safest method for evacuating the campus. This may include the use of school buses or simply walking to the designated off-site location. The off-site assembly areas are indicated on the Vicinity Map in Appendix C.
3. Teachers will secure the student roster when leaving the building and take attendance once the class is assembled in a pre-designated safe location.
4. Once assembled off-site, teachers and students will stay in place until further instructions are given.
5. In the event clearance is received from appropriate agencies, the Principal may authorize students and staff to return to the classrooms.

4.6 ALL CLEAR

This action is taken to notify teachers that normal school operations can resume.

Description of Action

1. An administrator may wish to use the following announcement on the PA system. If the PA system is not available, they will use other means of communication to deliver instructions.
“YOUR ATTENTION PLEASE. IT IS NOW OK TO RETURN TO YOUR CLASSROOM AND RESUME NORMAL OPERATIONS. I WOULD LIKE TO THANK AND COMMEND STUDENTS AND STAFF FOR THEIR COOPERATION.”
2. This action signifies the emergency is over.
3. If appropriate, teachers should immediately begin discussions and activities to address students’ fears, anxieties, and other concerns.
4. Staff and students affected by the incident will participate in Critical Incident Stress Management (CISM) debriefing as coordinated by the assigned Crisis Response Team.

4.7 RUN, HIDE, ACT

This action is taken when any staff member identifies the threat of violence or gunfire. The perpetrator(s) and/or active shooter(s) in this case may have entered the campus unnoticed and has already begun to harm staff and students. Staff is therefore encouraged to independently utilize the Run, Hide, Act information below in their response to the active shooter(s).

Description of Action

1. Run, and/or evacuate from the area, if an escape route is accessible, and encourage students and other staff to do the same. Evacuate regardless of others decisions to stay. Leave belongings behind and assist others in escaping if possible. Avoid being under a desk, in a closet and/or in the corner of a room. Other items to consider:
 - a. Escape in a safe direction and away from sounds of gunshots or explosions.
 - b. Stay low while peeking around corners before running down a hall.
 - c. When encountering law enforcement, keep hands visible, raise hands and say "Friendly" follow their instructions and point direction only if asked.
 - d. Prevent individuals from entering the area where the active shooter might be located.
 - e. Do not attempt to move wounded individuals.
 - f. Proceed to a safe area and call 911 to notify law enforcement of your location.
2. Hide in a safe place and barricade all doors, if evacuation/escape is not possible. Other items to consider:
 - a. Close your locked door.
 - b. Block and secure the door by moving heavy objects/furniture against it and holding it with the occupant's feet while prone. Maintain low body profile to minimize exposure to gunfire.
 - c. Silence cell phones and other devices and remain quiet.
 - d. Turn off lights, close blinds and be out of the shooter's view.
 - e. Once your classroom/office is safe, staff may wish to use the following PA announcement to alert others:
"LOCKDOWN, LOCKDOWN, THIS IS (YOUR NAME) IN (YOUR LOCATION)."
 - f. Any staff member can call 911 to advise law enforcement of the general area of the perpetrator(s).
3. Act to incapacitate and/or overwhelm the active shooter when facing imminent injury or death. Other items to consider:
 - a. Teacher/staff should commit to stopping the threat.
 - b. Yell, throw items to distract and/or charge the shooter to overtake and/or delay while time is provided for students or staff to run.

- Threat of Violence
- Unlawful Demonstration/Walkout

It is important to note that school administrators are responsible for the health and safety of students and staff during an emergency. Although the following procedures refer to specific actions, school administrators must exercise discretion in implementing standardized procedures, and should consider modifications as necessary to assure the health and safety of all personnel during an emergency.

In the following procedures, the Principal or designee will be referred to as “School Administrator”.

5.1 AIRCRAFT CRASH

This procedure addresses situations involving an Aircraft Crash on or in proximity to school property. If a crash results in a fuel or chemical spill on school property, refer to Section 5.4, Biological or Chemical Release. If a crash results in a utility interruption, refer to Section 5.13, Loss or Failure of Utilities.

Procedure

1. The School Administrator will initiate appropriate Immediate Response Actions, which may include DUCK AND COVER, SHELTER-IN-PLACE, EVACUATE BUILDING, or OFF-SITE EVACUATION as described in Section 4.0.
2. If the School Administrator issues the EVACUATE BUILDING action, staff and students will evacuate the buildings using prescribed routes or other safe routes to the Assembly Area.
3. In the event of an evacuation, teachers will bring their student roster and take attendance at the Assembly Area to account for students. Teachers will notify the Assembly Area Team of missing students.
4. The School Administrator will call "911" and Local Police [ph # 621-7000] and will provide the exact location (e.g., building or area) and nature of emergency.
5. If on school property, the Security/Utilities Team will secure the crash area to prevent unauthorized access. If the crash results in a fuel or chemical spill on school property, refer to Section 5.4. If the crash results in a utility interruption, refer to Section 5.13.
6. The School Administrator will direct the Fire Suppression and HazMat Team to organize fire suppression activities until the Fire Department arrives.
7. The First Aid/Medical Team will check injuries to provide appropriate first aid.
8. The School Administrator will call the office of the Local District Superintendent. A member of this group will call the Office of Communications with information on this situation as appropriate.
9. Any affected areas will not be reopened until the Fresno County Fire Department or appropriate agency provides clearance and the School Administrator issues authorization to do so.
10. The Psychological First Aid Team will convene onsite and begin the process of counseling and recovery as appropriate.
11. If it is unsafe to remain on campus, the School Administrator will initiate an OFF-SITE EVACUATION, as described in Section 4.0 if warranted by changes in conditions.

5.2 ANIMAL DISTURBANCE

This procedure should be implemented when the presence of a dog, coyote, mountain lion or any other wild animal threatens the safety of students and staff.

Procedure

1. The School Administrator will initiate appropriate Immediate Response Actions, which may include LOCK DOWN or EVACUATE BUILDING as described in Section 4.0.
2. Upon discovery of an animal, staff members will attempt to isolate the animal from students, if it is safe to do so. If the animal is outside, students will be kept inside. If the animal is inside, students will remain outside in an area away from the animal. It is suggested closing doors or locking gates as means to isolate the animal.
3. If additional outside assistance is needed, the School Administrator will call "911", Local Police [621-7000], Animal Control [233-7722] and provide the location of the animal and nature of emergency.
4. If a staff member or student is injured, the School Nurse, the parent, and Student Medical Services will be notified.
5. The School Administrator will initiate an OFF-SITE EVACUATION, as described in Section 4.0, if warranted by changes in conditions at the school.

5.3 ARMED ASSAULT ON CAMPUS

An **Armed Assault on Campus** involves one or more individuals who attempt to cause physical harm to students and staff and/or takes hostages. Such an incident may involve individuals who possess a firearm, an edged weapon or other dangerous weapons and/or device.

Procedure

1. Upon first indication of an armed assault, personnel should immediately initiate the RUN, HIDE, ACT policy described in section 4.7.
If and when law enforcement notifies the school of an armed assailant or dangerous police activity in the area, school personnel will initiate the appropriate responses, which may include SHELTER-IN-PLACE, LOCKDOWN and/or EVACUATIONS (as described in section 4.2, 4.3, 4.4, 4.5).
2. A school administrator and/or staff member, when safe to do so, will call 911 and provide police with the following information, when feasible; number of assailants and locations of assailant(s). They shall remain in contact with law enforcement in order to provide updates. If possible, another school administrator and/or staff member should call the Superintendent's office at (559) 274-4700 and share initial details of the emergency. Staff is encouraged to use the CUSD Emergency Communications Action Plan Check-List for reference.
3. Staff should implement appropriate classroom management steps to calm and control students, and if safe to do so, implement the RUN, HIDE, ACT policy described in section 4.7.
4. In a critical incident, law enforcement response will be immediate and focused at the campus. An Incident Command System will be implemented and school administration and staff should follow the directions of the law enforcement Incident Commander.
5. At the directions of the Incident Commander, the following steps may be taken;
 - a) Conduct a survey to account for all students and staff.
 - b) Provide or render First Aid.
 - c) School Administrators, in conjunction with the Incident Commander, may assist in verifying the numbers of injured and potential casualties.
 - d) CUSD Public Information Officer and other District staff will work in accordance with ICS protocol and arrive on scene as soon as possible to assist with administrative and media details.
6. Staff and students affected by the incident will participate in Critical Incident Stress Management (CISM) debriefing as coordinated by the assigned Crisis Response Team.

5.4 BIOLOGICAL OR CHEMICAL RELEASE

A **Biological or Chemical Release** is an incident involving the discharge of a biological or chemical substance in a solid, liquid or gaseous state. Such incidents may also include the release of radioactive materials. Common chemical threats within or adjacent to schools include the discharge of acid in a school laboratory, an overturned truck of hazardous materials in proximity of the school, or an explosion at a nearby oil refinery or other chemical plant.

The following indicators may suggest the release of a biological or chemical substance: Multiple victims suffering from watery eyes, twitching, choking or loss of coordination, or having trouble breathing. Other indicators may include the presence of distressed animals or dead birds.

This procedure deals with three possible scenarios involving the release of biochemical substances: Scenario 1 - Substance released inside a room or a building; Scenario 2 - Substance released outdoors and localized; and Scenario 3 - Substance released in surrounding community. It is necessary to first determine which scenario applies and then implement the appropriate response procedures listed below.

Procedure

Scenario 1: Substance Released Inside a Room or Building

1. The School Administrator will initiate the EVACUATE BUILDING action as described in Section 4.0. Staff will use designated routes or other alternative safe routes to an assigned Assembly Area, located upwind of the affected room or building.
2. The School Administrator will call "911", Local Police [ph # 621-7000] and the Local Fire Department [ph # 621-4181] and will provide the exact location (e.g., building, room, and area) and nature of emergency.
3. The School Administrator will notify the District Superintendent of the situation.
4. The School Administrator will instruct the Security/Utilities Team to isolate and restrict access to potentially contaminated areas.
5. The Security/Utilities Team will turn off local fans in the area of the release, close the windows and doors, and shut down the building's air handling system.
6. Persons who have come into direct contact with hazardous substances should have affected areas washed with soap and water. Immediately remove and contain contaminated clothes. Do not use bleach or other disinfectants on potentially exposed skin. Individuals that have been contaminated "topically" by a liquid should be segregated from unaffected individuals (isolation does not apply to widespread airborne releases). A member of the First Aid/Medical Team should assess the need for medical attention.
7. The Assembly Area Team will prepare a list of all people in the affected room or contaminated area, specifying those who may have had actual contact with the substance. The Assembly Area Team will provide the list to the School Administrator and the emergency response personnel.
8. The School Administrator will complete the Biological and Chemical Release Response Checklist (Form B, Appendix A).
9. The Psychological First Aid Team will convene onsite and begin the process of counseling and recovery.
10. Any affected areas will not be reopened until the Fresno County HazMat or appropriate agency provides clearance and the School Administrator gives authorization to do so.

Scenario 2: Substance Released Outdoors and Localized

1. The School Administrator will immediately direct staff to remove students from the affected areas to an area upwind from the release. The School Administrator will, if necessary, initiate the EVACUATE BUILDING action as described in Section 4.0.
2. The Security/Utilities Team will establish a safe perimeter around the affected area and ensure personnel do not reenter the area.
3. The School Administrator will call “911”, Local Police [ph # 621-7000] and the Local Fire Department [ph # 621-4181] and will provide the exact location and nature of emergency.
4. The School Administrator will notify the Local District Superintendent of the situation.
5. The Security/Utilities Team will turn off local fans in the area of the release, close the windows and doors and shut down the air handling systems of affected buildings.
6. Persons who have come into direct contact with hazardous substances should have affected areas washed with soap and water. Immediately remove and contain contaminated clothes. Do not use bleach or other disinfectants on potentially exposed skin. Individuals that have been contaminated “topically” by a liquid should be segregated from unaffected individuals (isolation does not apply to widespread airborne releases). A member of the First Aid/Medical Team should assess the need for medical attention.
7. The Assembly Area Team will prepare a list of all people in areas of contamination, especially those who may have had actual contact with the substance. The Assembly Area Team will provide the list to the School Administrator and the emergency response personnel.
8. The Psychological First Aid Team will convene onsite and begin the process of counseling and recovery.
9. Any affected areas will not be reopened until the appropriate agency provides clearance and the School Administrator gives authorization to do so.

Scenario 3: Substance Released in Surrounding Community

1. If the School Administrator or local authorities determine a potentially toxic substance has been released to the atmosphere, the School Administrator will initiate SHELTER-IN-PLACE as described in Section 4.0.
2. Upon receiving the SHELTER-IN-PLACE notification, the Security/Utilities Team will turn off local fans in the area; close and lock doors and windows; shut down all buildings’ air handling systems; seal gaps under doors and windows with wet towels or duct tape; seal vents with aluminum foil or plastic wrap, if available; and turn off sources of ignition, such as pilot lights.
3. Staff and students located outdoors will be directed to proceed immediately to nearby classrooms or buildings (e.g., auditorium, library, cafeteria, and gymnasium). Teachers should communicate their locations to the School Administrator, using the PA system or other means without leaving the building.
4. The School Administrator will call “911”, Local Police [ph # 621-7000] and the Local Fire Department [ph # 621-4181] and will provide the exact location and nature of emergency.
5. The School Administrator will notify the Local District Superintendent of the situation.
6. The School Administrator will turn on a radio or television station to monitor information concerning the incident.
7. The school will remain in a SHELTER-IN-PLACE condition until appropriate agency provides clearance, or staff is otherwise notified by the School Administrator.

5.5 BOMB THREAT

Response to a Bomb Threat is initiated upon the discovery of a suspicious package on campus grounds or receipt of a threatening phone call that may present a risk of an explosion.

Procedure

1. If the threat is received by telephone, the person receiving the call should attempt to keep the caller on the telephone as long as possible and alert someone else to call “911” - telling the operator, “This is [state name] from [state school]. We are receiving a bomb threat on another line. The number of that line is [state phone number].”
2. The person answering the threat call should ask the following questions, record the answers and then immediately notify the School Administrator:
 - When is the bomb going to explode?
 - Where is it?
 - What will cause it to explode?
 - What kind of bomb is it?
 - Who are you?
 - Why are you doing this?
 - What can we do for you to avoid the bomb from exploding?
 - How can you be contacted?
3. The School Administrator will direct the Search and Rescue Team(s) to search for suspicious packages, boxes or foreign objects. While conducting the search, all cell phones, beepers and hand-held radios should be turned off since many modern day explosive devices can be triggered by radio frequencies.
4. If a suspicious object is identified, one member of the Search and Rescue Team will report the discovery to the School Administrator while the remaining team members attempt to secure the immediate area.
5. No attempt should be made to investigate or examine the object.
6. After the search, the School Administrator will determine the appropriate Immediate Response Action(s) to announce, which may include DUCK AND COVER, LOCK DOWN, EVACUATE BUILDING or OFF-SITE EVACUATION as described in Section 4.0.
7. When a suspicious object or bomb is found, the School Administrator shall issue the EVACUATE BUILDING action. Staff and students will evacuate the building using prescribed routes or other safe routes to the Assembly Area.
8. In the event of an evacuation, Teachers will bring their student roster and take attendance at the Assembly Area to account for students. Teachers will notify the Assembly Area Team of missing students.
9. The School Administrator will notify “911”, if not previously notified, and Local Police [ph # 621-7000] and will provide the exact location (e.g., building, room, area) of the potential bomb, if known.
10. The School Administrator will notify the Local District Superintendent of the situation.
11. The Psychological First Aid Team will convene onsite and begin the process of counseling and recovery.
12. Do not resume school activities until the affected buildings have been inspected by proper authorities and determined to be safe. The School Administrator will give the ALL CLEAR signal as described in Section 4.0 when appropriate.
13. The School Administrator will initiate an OFF-SITE EVACUATION, as described in Section 4.0 if warranted by changes in conditions.
14. After the incident is over, the School Administrator will complete the Bomb Threat Report (Form C, Appendix A).

5.6 BUS DISASTER

These procedures are for use by bus drivers and school administrators in the event of an earthquake, serious bus accident, or other emergency that occurs while students are on a field trip or being transported to or from school. If there are no students on the bus, drivers should report to Bus Dispatch at (559)275-9374 (office) / (559)647-0445 (emergency line), or the nearest school.

This section addresses three possible scenarios involving a bus disaster: Scenario 1 - Earthquake; Scenario 2 - Flood; and Scenario 3 - Serious Accident or Bus Fire. Bus drivers should first determine which scenario applies and then implement the appropriate response procedures. A copy of these procedures shall be kept in the emergency packet of each school bus. It is important to note that drivers may need to make spontaneous independent decisions, based on the nature of the emergency, age of children, location of bus, or other unique circumstances

Procedure

Scenario 1: Earthquake

At the first indication of an earthquake, the driver is to take the following steps:

- Pull to a safe point on the side of road, away from buildings, poles, wires, and bridges.
- Set brakes and turn off the ignition.
- Direct students and teachers to drop to the floor of the bus. Instruct passengers to face away from windows and assume the “crash” position on their knees with their heads down and hands clasped on the back of their heads making themselves as compact as possible.
- Teachers and the driver should remain calm and reassure the passengers.
- Remain in the duck and cover position until the shaking has stopped.
- Using the 2-way radio or cell phone, if necessary (559-275-9734) contact dispatch to report in and receive further instructions.
- Using route manifests account for all students and staff

Scenario 2: Flood

At the first indication of a flood or flash flood, the driver is to take the following steps:

- Be alert for washed-out roadways and bridges. Roads that parallel streams or other drainage channels may be swept away or covered by water and debris.
- Go to high ground if waters or flood is imminent.
- Do not drive through flooded streets or roads.
- Do not attempt to cross damaged bridges or overpasses.
- Contact dispatch if:
- Directed by public safety personnel or
- It is necessary to deviate from the assigned route or
- The bus becomes inoperable.
- Follow the direction of public safety personnel.
- Teachers and the driver should attempt to calm students.
- If there is the potential for flooding along the route, using the 2-way radio or cell phone, if necessary (559-275-9734,) contact dispatch to report in and receive further instructions.
- Using route manifests account for all students and staff.

Scenario 3: Serious Accident or Bus Fire

After an accident, where the bus makes contact with another vehicle, inanimate object, person, or animal, the driver is to take the following steps:

- Secure the bus by setting the parking brake and turning off the ignition. Do not move the bus unless directed by law enforcement or dispatch to do so.
- Evacuate the bus per evacuation procedures if there is smoke or fire.
- Assess injuries to passengers /self. Provide first aid as appropriate.
- Contact dispatch via 2-way radio or cell phone if necessary (559-275-9734) with pertinent information as soon as it is safe to do so.
- If applicable, activate emergency hazard flashers and place reflectors in the designated locations.
- Teachers and the driver should remain calm and reassure the passengers.
- Fill out the 2-part accident form. (Gather license # of other vehicle first.)
- Using route manifests account for all students and staff throughout the emergency.

Scenario 4: Fire or Smoke on the Bus

At the first indication of fire or smoke, the driver is to take the following steps:

- Secure the bus by setting the parking brake and turning off the ignition. Do not move the bus unless directed by law enforcement or dispatch to do so.
- Evacuate the bus per evacuation procedures and training.
- Assess injuries to passengers /self. Provide first aid as appropriate.
- Contact dispatch with pertinent information as soon as it is safe to do so.
- If applicable, activate emergency hazard flashers and place reflectors in the designated locations.
- Teachers and the driver should remain calm and reassure the passengers.
- Using route manifests account for the safety and control of all students and staff throughout the emergency.
- Extinguish the fire if it is small in nature.

5.7 DISORDERLY CONDUCT

Disorderly Conduct may involve a student or staff member exhibiting threatening or irrational behavior. If the perpetrator is armed, refer to Section 5.3, Armed Assault on Campus.

Procedure

1. Upon witnessing a Disorderly Conduct, staff should take steps to calm and control the situation and attempt to isolate the perpetrator from other students and staff, if it is safe to do so.
2. Staff will immediately notify the School Administrator.
3. The School Administrator will initiate the appropriate Immediate Response Actions, which may include SHELTER-IN-PLACE, LOCK DOWN, EVACUATE BUILDING or OFF-SITE EVACUATION as described in Section 4.0.
4. The School Administrator will call Local Police [ph # 621-7000], and provide the exact location and nature of the incident. If determined to be appropriate, the School Administrator will call "911".
5. If an immediate threat is not clearly evident, the School Administrator or a staff member may attempt to diffuse the situation. Approach the perpetrator in a calm, non-confrontational manner and request he or she leave the campus. Avoid any hostile situations.
6. If the perpetrator is a student, an attempt should be made to notify the family. (Family members may provide useful information on handling the situation.)
7. The School Administrator will notify the Local District Superintendent of the situation.

5.8 EARTHQUAKE

Earthquakes generally occur without warning and may cause minor to serious ground shaking, damage to buildings, and injuries. It is important to note that even a mild tremor can create a potentially hazardous situation and the following procedures should be implemented in response to all earthquakes regardless of magnitude.

Procedure

Note: Keep calm and remain where you are. Assess the situation, and then act. Remember, most injuries or deaths are the direct cause of falling or flying debris.

1. Upon the first indication of an earthquake, teachers should direct students to DUCK AND COVER as described in Section 4.0.
2. Move away from windows and overhead hazards to avoid glass and falling objects.
3. When the shaking stops, the School Administrator will initiate the EVACUATE BUILDING action as described in Section 4.0. Staff and students will evacuate the buildings using prescribed routes or other safe routes to the Assembly Area.
4. In the event of an evacuation, Teachers will bring their student roster and take attendance at the Assembly Area to account for students. Teachers will notify the Assembly Area Team of missing students.
5. The School Administrator will direct the Security/Utilities Team to post guards a safe distance away from building entrances to prevent access.
6. The Security/Utilities Team will notify school personnel of fallen electrical wires and instruct them to avoid touching the fallen wires.
7. The First Aid/Medical Team will check for injuries and provide appropriate first aid.
8. The School Administrator will direct the Security/Utilities Team to notify the appropriate utility company of damages (e.g., gas, power, water, or sewer).
9. If the area appears safe, the Search and Rescue Team will make an initial inspection of school buildings to identify any injured or trapped students or staff.
10. The School Administrator will contact the Local District Superintendent to determine additional actions that may be necessary. In turn, the actions will be communicated to the District's Office of Communications.
11. The School Administrator will contact the Local District Facilities Director to ensure buildings are safe for re-occupancy. When safe to do so, the Fire Suppression and HazMat Team will conduct an inspection of school buildings. The Fire Suppression and HazMat Team will maintain a log of their findings, by building, and provide a periodic report to the Incident Commander.
12. Any affected areas will not be reopened until the Local District Facilities provides clearance and the School Administrator gives authorization to do so.
13. The School Administrator will initiate an OFF-SITE EVACUATION, as described in Section 4.0, if warranted by changes in conditions at the school.

In the event an earthquake occurs during non- school hours:

1. The School Administrator and the Plant Manager will assess damages to determine any necessary corrective actions. The School Administrator may direct the Fire Suppression and HazMat Team to participate in the assessment.
2. The School Administrator should confer with the Local District Superintendent on identified damages to determine if the school should be closed.
3. If the school must be closed, the School Administrator will activate Parent Alert System and School Personnel Alert System as referenced in Section 5.0.

5.9 EXPLOSION/RISK OF EXPLOSION

This section addresses four possible scenarios involving an **Explosion/Risk of Explosion**: Scenario 1 - Explosion on school property; Scenario 2 - Risk of explosion on school property; Scenario 3 - Explosion or risk of explosion in a surrounding area, and Scenario 4 - Nuclear blast or explosion involving radioactive materials. [A nuclear blast is characterized by a sequence of intense light and heat, air pressure wave, expanding fireball, and subsequent radioactive fallout.]. It is necessary to first determine which scenario applies and then implement the appropriate response procedures. For “Bomb Threats”, refer to Section 5.5.

Procedure

Scenario 1: Explosion on School Property

1. In the event of an explosion, all persons should initiate DUCK AND COVER as described in Section 4.0.

Scenario 4: Nuclear Blast or Explosion Involving Radioactive Materials

1. The School Administrator will initiate the SHELTER-IN-PLACE response action as described in Section 4.0.
2. When sheltering, personnel should try to establish adequate barriers or shielding (e.g. concrete walls, metal doors) between themselves and the source of the blast or explosion, and should avoid sheltering near exterior windows.
3. The School Administrator will notify “911” and Local Police [ph # 621-7000] and provide details on the area and personnel affected at the school.
4. After the initial blast, remove students from rooms with broken windows, extinguish fires, provide first aid, and relocate students from upper floors if possible.
5. The Security/Utilities team will turn off the school’s main gas supply (refer to the Site Plot Plan in Appendix C for gas supply shut off valve), local fans in the area; close and lock doors and windows; shut down all buildings’ air handling systems; seal gaps under doors and windows with wet towels or duct tape; seal vents with aluminum foil or plastic wrap, if available; and turn off sources of ignition, such as pilot lights.
6. The School Administrator will monitor radio or television announcements and initiate further actions as appropriate.
7. At the School Administrator’s discretion, and only if safe to do so, designated personnel should attempt to distribute emergency supplies including food and water.
8. The school will remain in a SHELTER-IN-PLACE condition until the appropriate agency provides clearance and the School Administrator issues further instructions.

5.10 FIRE IN SURROUNDING AREA

9. The School Administrator will notify the Local District Superintendent of the fire. A member of this group will call the Office of Communications with information on this situation.
10. If needed, the School Administrator will notify Bus Dispatch to request busses for staff and student evacuation.
11. Any affected areas will not be reopened until the Local Fire Department or appropriate agency provides clearance and the School Administrator issues authorization to do so.
12. For fires during non-school hours, the School Administrator and the Local District Superintendent will determine if the school will open the following day.
13. All fires, regardless of their size, which are extinguished by school personnel, require a call to the Fire Department to indicate "fire is out."

5.12 FLOODING

This procedure applies whenever storm water or other sources of water inundate or threaten to inundate school grounds or buildings. Flooding may occur as a result of prolonged periods of rainfall, where the school would have sufficient time to prepare. Alternatively, flooding may occur without warning, as a result of damage to water distribution systems, or a failure of a nearby man-made dam.

Procedure

1. The School Administrator will initiate appropriate Immediate Response Actions, which may include SHELTER-IN-PLACE, EVACUATE BUILDING, or OFF-SITE EVACUATION, as described in Section 4.0.
2. The School Administrator will notify “911” and Local Police [ph # 621-7000] if needed and will describe the nature and extent of the flooding.
3. The School Administrator will keep a battery-powered radio tuned to a local radio station for information.
4. If the School Administrator issues the EVACUATE BUILDING or OFF-SITE EVACUATION action, staff and students will evacuate affected buildings using prescribed routes or other safe routes to the Assembly Area.
5. In the event of an evacuation, Teachers will bring their student roster and take attendance at the Assembly Area to account for students. Teachers will notify the Assembly Area Team of missing students.
6. The School Administrator will notify the Local District Superintendent of the emergency situation. A member of this group will call the Office of Communications with information on this situation.
7. As appropriate, the School Administrator will activate Parent Alert System as referenced in Section 6.0.
8. The School Administrator will initiate an OFF-SITE EVACUATION, as described in Section 4.0 if warranted by changes in conditions

5.13 LOSS OR FAILURE OF UTILITIES

This procedure addresses situations involving a loss of water, power or other utility on school grounds. This procedure should also be used in the event of the discovery of a gas leak, an exposed electrical line, or a break in sewer lines.

Procedure

1. If water or an electrical line is broken, an effort should be made to turn off water or power to the affected area and to notify the School Administrator immediately.
2. Upon notice of loss of utilities, the School Administrator will initiate appropriate Immediate Response Actions, which may include SHELTER-IN-PLACE, or EVACUATE BUILDING, as described in Section 4.0.
3. The School Administrator will notify the Local Maintenance Area (Monday - Friday between the hours of 7:00 a.m. - 4:30 p.m.) or Local Police (at all other days/hours) and will provide the location and nature of emergency. Appropriate personnel will also be notified at the discretion of the School Administrator.
4. Local Maintenance Area personnel, working with school administration, will contact the affected utility company to determine whether their assistance is required and the potential length of time service will be interrupted.
5. The School Administrator will notify the Local District Superintendent of the loss of utility service.
6. As needed, school emergency supplies will be utilized to compensate for the loss of a utility.
7. If the loss of utilities may generate a risk of explosion, such as a gas leak, refer to Section 5.9 Explosion/Risk of Explosion.
8. In addition to the procedures listed above, the Incident Commander will implement the following plans in the event utilities are disrupted.

A. Plan for a Loss of Water:

[Summarize a specific plan to provide for the following services in the event of a loss of water]

Toilets:

Custodians at school sites will manually force flush toilets using a bucket filled with water after each use as long as water is available. For schools where water is provided by a pump, water will be delivered in order to be able to force flush toilets when the pump is no longer functioning due to power outage. Portable toilets will be provided in the event water is no longer available to manually flush toilets. As a last resort in the event of a lockdown or district wide emergency such as an earthquake where shelter in place is implemented, and students are not able to access restrooms, a temporary toilet will be set up using a trash receptacle, plastic bags, and privacy screen.

Drinking Water:

(Specify how emergency water supply will be accessed and distributed to students and staff).

Central Unified District Office will deliver bottled water to school site and our supply team will implement distribution of water to classrooms

Food Service:

Food Service Staff will organize and supply food in the case of an emergency. School staff will distribute food to the classrooms, or develop a system for utilizing the cafeteria

Fire Suppression System (if applicable):

Building Code Wall Ratings for schools require that walls withstand fire for one hour and up to four hours. Dry chemical Fire Extinguishers are available classrooms according to code.

B. Plan for a Loss of Electricity:

[Summarize a specific plan to provide for the following services in the event of a loss of electricity]

Ventilation:

Shut off all equipment, cover open containers, and vacate classrooms; open windows where appropriate (shops and science rooms that may have solvent or chemical fumes present.)

Emergency Light:

In enclosed indoor areas such as hallways, emergency lighting is in place with battery backup.

For wheelchair-bound students who may be on an elevated stage at the time of loss of electricity, handicapped access ramps may be released without power; if more than one wheelchair-bound student is impacted, then alternate means will be necessary to lower more than one student. Elevators will default to the bottom floor in the event of loss of electricity. Fire doors will shut in shop areas and assembly areas, so egress and re-entry will have to be planned for. Avoid water on the floor or anywhere near power shut off areas.

Other:

C. Plan for a Loss of Natural Gas

[Summarize a specific plan to provide for the following services in the event of a loss of natural gas]

Food Service:

Non-perishable food would be utilized during the time food preparation could not occur. Juice and milk would potentially still be available and would also be consumed during this time.

Other:

Seismic shut off valves are present in all new schools to protect against gas leaks from broken pipes or valves. Older schools are tied to PG&E and do not all have seismic shutoffs but are being added through modernization projects. Older schools that have not been modernized will be evacuated, and maintenance will be notified. Gas leaks are generally low pressure and gas normally dissipates.

D. Plan for a Loss of Communication

[Summarize a specific plan to provide for the following services in the event of a loss of communication]

Telephone Service:

Alternate means of communication such as radios and bullhorns will be used.

Other:

5.14 MOTOR VEHICLE CRASH

This procedure addresses situations involving a Motor Vehicle Crash on or immediately adjacent to school property. If a crash results in a fuel or chemical spill on school property, refer to Section 5.4, Biological or Chemical Release. If a crash results in a utility interruption, refer to Section 5.13, Loss or Failure of Utilities.

Procedure

1. The School Administrator will initiate appropriate Immediate Response Actions, which may include DUCK AND COVER, SHELTER-IN-PLACE, EVACUATE BUILDING, or OFF-SITE EVACUATION as described in Section 4.0.
2. If the School Administrator issues the EVACUATE BUILDING action, staff and students will evacuate the buildings using prescribed routes or other safe routes to the Assembly Area.
3. In the event of an evacuation, Teachers will bring their student roster and take attendance at the Assembly Area to account for students. Teachers will notify the Assembly Area Team of missing students.
4. The School Administrator will call "911" and Local Police [ph # 621-7000] and will provide the exact location (e.g., building, area) and nature of emergency.
5. The School Administrator will notify the Local District Superintendent of the situation. A member of this group will call the Office of Communications with information on this situation.
6. The Security/Utilities Team will secure the crash area to prevent unauthorized access. If the crash results in a fuel or chemical spill, refer to Section 5.4. If the crash results in a utility interruption, refer to Section 5.13.
7. The School Administrator will direct the Fire Suppression and HazMat Team to organize fire suppression activities until the Fire Department arrives.
8. The First Aid/Medical Team will check for injuries to provide appropriate first aid.
9. Any affected areas will not be reopened until the agency provides clearance and the School Administrator issues authorization to do so.
10. The School Administrator will initiate an OFF-SITE EVACUATION, as described in Section 4.0 if warranted by changes in conditions.

5.15 PSYCHOLOGICAL TRAUMA

Crisis management at Student Services/Special Education Offices specifies actions during and subsequent to any emergency that may have a psychological impact on students and staff, such as an act of violence; the death of a student or staff member; an earthquake or other natural disaster; a serious environmental problem; or ethnic and racial tensions. Emergencies like those described above usually produce one or more of the following conditions:

- Temporary disruption of regular school functions and routines.
- Significant interference with the ability of students and staff to focus on learning.
- Physical and/or psychological injury to students and staff.
- Concentrated attention from the community and news media.

As a result of such emergencies, students and staff may exhibit a variety of psychological reactions. As soon as the physical safety of those involved has been insured, attention must turn to meeting the emotional and psychological needs of students and staff.

For specific procedures relating to crisis management – Contact Elizabeth Echeveste at 559.274.4700 ext. 63140, located at District Office - Room 12.

Procedure

1. The School Administrator will establish Psychological First Aid Team, which has primary responsibility for providing necessary assistance after all types of crises.
2. The Psychological First Aid Team will assess the range of crisis intervention services needed during and following an emergency.
3. The Psychological First Aid Team will provide direct intervention services.
4. If there is a need for additional assistance, the School Administrator will notify the Local District Superintendent.
5. The Psychological First Aid Team will advise and assist the School Administrator to restore regular school functions as efficiently and as quickly as possible.
6. In performing their duties, the Psychological First Aid Team members will limit exposure to scenes of trauma, injury and death.
7. The Psychological First Aid Team will provide ongoing assessment of needs and follow-ups services as required.

5.16 SUSPECTED CONTAMINATION OF FOOD OR WATER

This procedure should be followed if site personnel report suspected contamination of food or water. This procedure applies where there is evidence of tampering with food packaging, observation of suspicious individuals in proximity to food or water supplies, or if notified of possible food/water contamination by central District staff or local agencies. Indicators of contamination may include unusual odor, color, taste, or multiple employees with unexplained nausea, vomiting, or other illnesses.

Procedure

1. The School Administrator will isolate the suspected contaminated food/water to prevent consumption, and will restrict access to the area.
2. The School Administrator will notify "911", Local Police [ph # 621-7000], Fresno County Department of Health Services [600-3200], District Office, Director of Food Services.
3. The School Administrator will make a list of all potentially affected students and staff, and will provide the list to responding authorities.
4. The First Aid/Medical Team will assess the need for medical attention and provide first aid as appropriate.
5. The School Administrator will maintain a log of affected students and staff and their symptoms, the food/water suspected to be contaminated the quantity and character of products consumed, and other pertinent information.
6. School police will notify members of the Serious Incident Response Team (SIRT), which will conduct an onsite review to determine necessary follow-up actions including the need to notify other potentially affected District facilities.
7. The School Administrator and the District Superintendent will confer with the Fresno County Department of Health Services before the resumption of normal operations.
8. The School Administrator will notify parents of the incident, as appropriate.

5.17 THREAT OF VIOLENCE

This procedure should be followed if site personnel receive a threat that may target an individual, a particular group or the entire school community. Such threats may be received by written note, e-mail communication or phone call. The School Administrator should ensure all threats are properly assessed in accordance with district policies and procedures

Procedure

1. The School Administrator will identify the type of threat and attempt to determine the individual(s) making the threat.
2. The School Threat Assessment Team will conduct the threat assessment in accordance with Threat Assessment Protocol. A school police officer should be part of this team.
3. Consistent with Threat Assessment Protocol, the School Threat Assessment Team will assess the warning signs, risk factors, stabilizing factors and potential precipitating events to arrive at a categorical description of the risk for a particular point in time. There are five categories of risk as described by the Local Police Department:

Category 1 High violence potential; qualifies for arrest or hospitalization.

Category 2 High violence potential; does not qualify for arrest or hospitalization.

Category 3 Insufficient evidence for violence potential; sufficient evidence for the repetitive/intentional infliction of emotional distress upon others.

Category 4 Insufficient evidence for violence potential; sufficient evidence for the unintentional infliction of emotional distress upon others.

Category 5 Insufficient evidence for violence potential; insufficient evidence for emotional distress upon others.

4. In categorizing the risk, the School Threat Assessment Team will attempt to answer two questions: (1) Is the individual moving on a path towards violent action? (2) Is there evidence to suggest movement from thought to action?
5. The School Threat Assessment Team will assess the warning signs by evaluating the associated oral, written or electronic threatening communications.
6. The School Threat Assessment Team will recommend appropriate action to the School Administrator.
7. As soon as the physical safety of those involved has been insured, attention will turn to meeting the emotional and psychological needs of students and staff. Crisis intervention may be necessary and appropriate.

5.18 UNLAWFUL DEMONSTRATION/WALKOUT

An Unlawful Demonstration/Walkout is any unauthorized assemblage on or off campus by staff or students for the purpose of protest or demonstration.

Procedure

1. Upon indication that an unlawful demonstration or walkout is about to begin, personnel should immediately notify the School Administrator.
2. The School Administrator will initiate appropriate Immediate Response Actions, which may include SHELTER-IN-PLACE as described in Section 4.0.
3. The School Administrator will notify the District Office, and School Police to request assistance and provide the exact location and nature of emergency.
4. The Request Gate Team will immediately proceed to the Main Gate to control student ingress and egress. Each person entering or leaving the campus shall be required to sign his/her name, and record address, telephone number and time entered or departed. The Main Gate should not be locked, as a locked gate may create a serious hazard for students leaving or attempting to re-enter the campus.
5. If students leave the campus, the Request Gate Team, in consultation with the School Administrator, will designate appropriate staff members to accompany them. These staff members will attempt to guide and control the actions of students while offsite.
6. Students not participating in the demonstration or walkout should be kept within their classrooms until further notice by the School Administrator. Teachers will close and lock classroom doors. Students and staff should be protected from flying glass in the event windows are broken, by closing drapes and venetian blinds in rooms so equipped.
7. The Documentation staff member should keep accurate record of events, conversations and actions.
8. All media inquiries will be referred to the designated school's Public Information Officer.
9. The School Administrator should proceed in good judgment on basis of police or other legal advice, in taking action to control and resolve the situation.
10. The School Administrator will notify parents of the incident, as appropriate.

5.19 PANDEMIC INFLUENZA

A pandemic flu is a type of flu that causes severe outbreaks that progress rapidly to involve all parts of the world. It occurs outside the usual “Flu season”. There is usually a high attack rate in all age groups and high mortality even in children and healthy young adults. There are usually multiple waves of disease immediately before and after the main outbreak. Schools, in addition to many other businesses, will likely be closed for extended periods of time, up to one year or even longer, during such a pandemic and need to make plans for continuity of education of students. The following actions are measures that should be taken in order to reduce the risks of a pandemic:

PROCEDURES	RESPONSIBILITY
Emphasize protective measures during flu season that should be utilized by children and staff including the following: <ul style="list-style-type: none">• Remind children and staff to wash their hands often, especially after sneezing or coughing. Use soap and warm water or alcohol-based hand sanitizer• Avoid touching your eyes, nose or mouth• Avoid close contact with people who are sick• Cover your mouth and nose with a tissue or sleeve when coughing or sneezing• Put your tissue in a trashcan• Stay home when you are sick• Wear a mask when you are sick and coughing	
Ensure hand washing equipment and/or hand sanitizers for children and staff are readily available.	
Develop local policies that discourage/prohibit attendance of symptomatic individuals, both staff and students.	
Encourage agency personnel to receive annual influenza vaccine.	
Raise public awareness of potential for pandemic influenza, the importance of hand washing, vaccination, and self-care.	
Work with health authority and local emergency services agencies to develop contingency plans for pandemic influenza	
Work with local information technology staff in developing Pandemic Influenza plans so that education of students can continue even though the physical school location is closed for extended periods of time	

6.0 OTHER EMERGENCY INFORMATION

The School Administrator must have access to appropriate information, and a method of communication with parents, school personnel and outside agencies. To facilitate this communication, the following information is provided for use in an emergency.

- CUSD Emergency Communications Action Plan Check-Lists
- Alert System 1 (Parent)
- Alert System 2 (School Personnel)
- Site Plot Plan and Vicinity Map
- Emergency Phone Numbers
- Emergency Drills

6.1 CUSD EMERGENCY COMMUNICATIONS ACTION PLAN CHECK-LISTS

Schools Action List

- ☐ Call 911 and secure your campus
- ☐ Call the Superintendent's office 559-274-4700 ext 63150 and share initial details of emergency
- ☐ Note time of emergency, i.e. dismissal, are kids still on campus, other events going on so Supt's office can work with transportation and other agencies if necessary
- ☐ Work with Police upon their arrival and follow their lead
- ☐ Once police declare your campus secure, do an all call on your PA system (if available) or radios and notify your staff and students that all is clear –also request that students text their parents and tell them that they are safe and ok
- ☐ Principals be visible to your students and staff immediately following an emergency - District Office staff and the SPC/PIO will arrive asap and assist with administrative and media details
- ☐ A member of the school site admin team should go to your pre-determined parent area to brief arriving parents. Ask parents to stay in that area and inform them that you will be providing updates. Once DO administrator arrives, they can take on this task for you
- ☐ Media may arrive before PIO can arrive. Do not provide any statements. Please ask them to wait in a pre-determined area and assure them that they will receive information from the PIO. Upon arrival, the PIO will need access to an onsite office with a computer to develop communications to parents and media
- ☐ Assess your staff and students and determine if the District should send crisis team or counselor to scene – communicate this with DO administrator on scene- this could also carry over to the following day
- ☐ After staff has ensured that students are ok, text your own family and let them know you are ok and will check in later; make arrangements for your own family, daycare, pickup, etc.
- ☐ The PIO will work on crafting updates to go out to your parents and district as needed depending on the length of the emergency.
- ☐ Once the emergency has concluded and all initial and secondary communications have been made, the PIO will work with the school site to prepare a final statement with talking points about the emergency. This will help squash rumors. The statement should also include information about available resources for students and staff
- ☐ It is requested that the principal and school community facilitator record the final statement and send in a follow up phone message through school messenger in English and Spanish to go home within 24 hours of the emergency.
- ☐ In the days following the emergency, please refer all media inquiries to the PIO. If you receive requests for comments, please contact the PIO to coordinate 559-274-4700 ext 63150
- ☐ In the days following the emergency, the superintendent will call for a debrief meeting with the involved City PD, principals, PIO and DO admins on scene

6.6 EMERGENCY DRILLS

In order to be adequately prepared, the following drills should be executed and documented in the Emergency Drill Record (Form G, Appendix A). There are three emergency drills school personnel should be prepared to implement: Drill 1 - Fire; Drill 2 - Shelter-in-Place Alert; and Drill 3 - Earthquake.

6.6.1: Drill 1 - Fire

Signal: Continuing short bells for 10 seconds pause for 5 seconds; sequence repeats for a minimum of 1 minute.

Procedure:

Teachers

1. Please refer to the evacuation map in your classroom. If the room does not have a map, please contact the Principal today.
2. Familiarize yourself with class's route before the drill begins.
3. When the signal is given, have students form a single line outside the classroom. (Form a double line for large classes.)
4. Check to see that all students are out of the classroom; take student roster and close all doors.
5. Have students walk quietly in single file to the Assembly Area. Teachers should walk at the rear of the line.
6. Have students form a single line in the designated Assembly Area
7. Take attendance.
8. Wait for the "all clear" signal - one long, steady bell - then return quietly to your classroom in single file.

All Other Personnel: Report to Assembly Area for further instructions.

6.6.2: Drill 2 - Shelter-In-Place

A Shelter-In-Place indicates that an emergency that requires students and staff to remain inside has occurred.

Signal: The signal for the "Shelter-In-Place" drill is the following PA announcement.

"YOUR ATTENTION PLEASE. BECAUSE WE HAVE RECEIVED INFORMATION REGARDING A HAZARD IN THE COMMUNITY, WE ARE INSTITUTING SHELTER-IN-PLACE PROCEDURES. REMEMBER, THIS MEANS STUDENTS AND STAFF ARE TO REMAIN INSIDE THE BUILDING AWAY FROM OUTSIDE AIR WITH WINDOWS AND DOORS SECURELY CLOSED AND AIR CONDITIONING UNITS TURNED OFF. ALL STUDENTS AND STAFF THAT ARE OUTSIDE ARE TO IMMEDIATELY MOVE TO THE PROTECTION OF AN INSIDE ROOM. AS SOON AS WE HAVE FURTHER INFORMATION, WE WILL SHARE IT WITH YOU."

Procedure:

1. When the announcement has been given, all classes will remain in their rooms.
2. Physical education classes will proceed into the gym.
3. Students should be arranged in the shelter area so as to enable them to assume a "Duck and Cover" position on command given by the teacher in charge.
4. Move students to the most protected areas in the room.
5. Have students face away from windows and keep their backs toward windows.
6. Close all doors and windows.
7. Turn off gas, lights, power equipment, and appliances. All personnel must remain in the shelter area until further instructions are received from official sources.

6.6.3: Drill 3 - Earthquake

An earthquake drill is held to provide maximum protection in case of earthquake or other emergency where the risk of flying or falling debris is present. No advance warning or signal normally will be given. In practice drills, teachers should supervise students and be alert to the position of each student during the entire drill.

Signal: The signal for the drill is the following PA announcement.

“YOUR ATTENTION PLEASE. AS YOU ARE AWARE, WE ARE EXPERIENCING SOME SEISMIC ACTIVITY. FOR EVERYONE’S PROTECTION, ALL STUDENTS SHOULD FOLLOW STAFF DUCK AND COVER PROCEDURES, WHICH MEAN YOU SHOULD BE IN A PROTECTED POSITION UNDER A TABLE OR DESK, AWAY FROM WINDOWS AND ANYTHING THAT COULD FALL AND HURT YOU. HOLD THIS POSITION UNTIL THE SHAKE STOPS OR GIVEN FURTHER INSTRUCTIONS.”

Procedure:

1. Drop to knees facing away from windows.
2. Get under desks or tables where possible.
3. Fold body onto floor with arms close to knees.
4. Place head as far as is possible between knees; cover crown of the head with hands.
5. Stay in this position for 10 seconds.
6. Teachers will direct students to return to seats.

After an earthquake, students will evacuate using the evacuation routes practiced during the fire drill. The students are gathered in the Assembly Area and line up in the designated space.

If an earthquake occurs during non-classroom hours i.e., passing periods, nutrition, or lunch, all persons will proceed to the Assembly Area and line up in the designated space.

6.6.4: Drill 4 - Lockdown

FORM G

Central Unified School District AED PROGRAM (Automated External Defibrillator)

CUSD Board Policy BP 5141

Health Care and Emergencies

The Governing Board recognizes the importance of taking appropriate action whenever an emergency threatens the safety, health or welfare of a student at school or during school-sponsored activities.

(cf. 0450 - Comprehensive Safety Plan)

(cf. 3516 - Emergencies and Disaster Preparedness Plan)

(cf. 5141.21 - Administering Medication and Monitoring Health Conditions)

(cf. 5141.23 - Infectious Disease Prevention)

(cf. 5142 - Safety)

The Superintendent or designee shall develop procedures to ensure that first aid and/or medical attention is provided as quickly as possible when student accidents and injuries occur and that parents/guardians are notified as appropriate.

(cf. 3530 - Risk Management/Insurance)

(cf. 5143 - Insurance)

(cf. 6145.2 - Athletic Competition)

The Superintendent or designee shall ask parents/guardians to provide emergency contact information in order to facilitate communication in the event of an accident or illness.

District staff shall appropriately report and document student accidents.

Resuscitation Orders

The Board believes that staff members should not be placed in the position of determining whether or not to follow any parental or medical "do not resuscitate" orders. Staff shall not accept or follow any such orders unless they have been informed by the Superintendent or designee that the request to accept such an order has been submitted to the Superintendent or designee, signed by the parent/guardian, and supported by a written statement from the student's physician and an order from an appropriate court.

The Superintendent or designee shall ensure that all parents/guardians are informed of this policy.

Automated External Defibrillators

The Board authorizes the placement of automated external defibrillators (AEDs) at designated school sites for use by designated personnel who have volunteered to receive training in the use of AEDs.

The Superintendent or designee shall develop guidelines for employees regarding the use of these devices and shall ensure that employees receive training on their proper use and handling.

AR 5141 Automated External Defibrillators

When an automated external defibrillator (AED) is placed in a school building, the principal or designee shall ensure that: (Health and Safety Code 1797.196)

1. School employees annually receive a brochure, with contents and style approved by the American Heart Association or American Red Cross, that describes the proper use of an AED
2. The American Heart Association or American Red Cross brochure or similar information is posted next to every AED
3. School employees are annually notified of the location of all AED units on school grounds

The principal shall designate the trained employees who shall be available to respond to an emergency that may involve the use of an AED during the hours of classroom instruction or when a school-sponsored activity is occurring on school grounds. (Health and Safety Code 1797.196)

Automated External Defibrillators General Guidelines

The Board authorizes the optional placement of automated external defibrillators (AEDs) at designated school sites for use by designated personnel who have volunteered to receive training in the use of the AEDs.

This authorization of AED placement in district schools shall not be deemed to create a guarantee or obligation to use the AED in the case of an emergency nor any expectation that an AED or trained employee will be present and/or able to use the AED in an emergency or any expectation that the AED will operate properly. Health and Safety Code 1797.196 (Good Samaritan Law), protects entities and individuals from civil liability resulting from using AED's in an emergency as long as certain conditions specified in the law are satisfied.

The AED is used for a Sudden cardiac arrest is a condition where the heart has unexpectedly and suddenly stopped beating and is just quivering. This quivering will last about 5 minutes until the heart is still. During that time if the heart is still quivering it is sometimes possible for the heart to be shocked back into normal rhythm with an Automated External Defibrillator or AED. The AED will analyze the health rhythm and advise the operator if there is a "shock able" rhythm, if so the AED will advise the operator to deliver a "shock". An AED is only applied to victims who are unconscious, without pulse, signs of circulation or normal breathing.

AED Program Requirements

The AED will be maintained and regularly tested according to the operation and maintenance guidelines set forth by the manufacturer, the American Heart Association, the American Red Cross, and according to the applicable rules and regulations set forth by the governmental authority under the federal Food and Drug Administration and any other applicable state and federal authority.

The school site will maintain a written AED plan as part of the School Safe School Plan that outlines the procedures to be followed in the event of an emergency that may involve an AED, to insure compliance with the requirements of the AED program. The written plan will include the AED use, steps needed for immediate notification of 911, and a list of personnel trained in CPR/AED at the school site. The plan will also include notification, documentation, and reporting procedures.

Maintenance

The AED will be checked for readiness after each use and at least once every thirty days if the AED has not been used in the preceding thirty days. Records of the checks will be maintained as part of the school Safe School Plan.

Any person who renders emergency care or treatment on a person in cardiac arrest by using an AED activates the Emergency Medical System (911) as soon as possible, and reports any use of the AED to the district AED coordinator who will notify the licensed physician signing for the AED units, and local EMS agency.

Training

For every AED unit on a school site, no less than five employees shall complete a training course in cardiopulmonary resuscitation and AED use that complies with the regulations adopted by the Emergency Medical Service Authority and the standards of the American Heart Association and American Red Cross. If two or more AED are on site one additional employee per additional unit will be trained to respond to an emergency that may involve the use of an AED unit. AED trained employees should be available during normal operating hours, which are defined as; "hours of classroom instruction and any school sponsored activity that may occur on the school grounds". A list of school site staff trained to respond with an AED and their training dates will be maintained as part of the school site Safe School Plan.

Notification and Documentation

When an AED is placed at a school site, the principal will ensure that the school administrators and staff receive an annual brochure approved as to content and style by the American Heart Association and American Red Cross that describes the proper use of an AED, the location of all AED units on campus and how to access, and a list of trained employees who will be able to respond to an emergency that may involve the use of an AED during the hours of classroom instruction and any school sponsored activities occurring on school grounds. A copy of this brochure with instructions for operation will be maintained with the AED unit.

2. Identify documentation system to check AED battery and equipment monthly.
3. Check AED supplies and order replacements as needed.
4. Assure that maintenance protocols are followed and recorded appropriately.

8. Monitor compliance of policies and procedures at sites via safe school plans for demonstration of AED competency.
9. Review all data and documentation for quality assurance of cardiac events where the AED was used and notify The American Red Cross for contact information for the local EMS agency.
10. Develop brochure describing AED, AED protocols, How to use Emergency Response Plan, etc. given to schools staff members yearly.
11. Maintain quality controls in micro and macro performance and adjust policy as needed to improve performance.
