Dear internal and external customers of Contrax Furnishings,

As you have probably heard, Contrax Furnishings is now known as MeTEOR Education. It is an exciting time as we expand our product and service offerings. However, we are learning that merely changing the name of a company is no small task. I have provided the information below to answer any questions you might have.

1. MeTEOR Education, LLC (formerly known as The Contrax Group, LLC) is a single-member limited liability company owned 100% by Contrax Furnishings, LLC. It is disregarded for tax purposes and its FEIN is 26-3476027. We are registered to do business in the majority of the states as this entity. Each state's timing is different so the name change is taking longer than anticipated. Once the change is recognized in each state, we will update each state agency with our new name.
2. Contrax Furnishings, LLC is a single-member limited liability company owned 100% by Contrax Holdings, LLC. It is disregarded for tax purposes and its FEIN is 59-3710754. Contrax Furnishings, LLC will continue to exist but all business should flow through from its subsidiary, MeTEOR Education, LLC.
3. Contrax Holdings, LLC is a partnership and its FEIN is 27-2106720. Income and expenses of the two entities above is consolidated and reported under this entity. It is the tax-responsible party so this entity and its FEIN must be listed on our W-9 form.

If you still have questions, please feel free to contact me directly at 352-416-1318.

Kind Regards,

Jewel caster

Special feature

Description

Our design philosophy is that the caster should never be an afterthought. In fact the caster should be the centre of attention as its performance will dictate the success or failure of any portable furniture design.

Unlike our competitors, Muzo designed its own caster. We wanted to put a little emotion into caster design - and a great deal of our research.

Key feature

The key patent-pending feature behind Jewel is the axis-point locking system, which enables mobile products to behave like fixed products as no axis rotation is possible when the brake is engaged.

- ❶ The axis locks preventing twisting
- ❷ The wheel locks preventing rolling

Levelling and stability

2 inch of levelling for uneven floors and stable on all floor surfaces thanks to the rubberized wheels.

Smooth in transit on all floor surfaces.
Fitted with ball bearing technology allowing rapid yet smooth change of direction.

Design

To prevent damage to the top of your footwear, you can lock and unlock from the top of the pad by simply applying pressure.

- ❶ Unlock
- ❷ Lock

What makes Kite tables unique?

The Kite table system is the world's only tilt-top, gate-leg table system. This ensures clear knee and leg room for everyone. The Kite shape (patented) offers an unrivalled number of opportunities for room layouts that help you meet, train & communicate correctly. Kite tables are the strongest folding tables available, with a full frame supporting all sides. This applies to all Kite table shapes. When folded, Kite tables don't cause any obstructions or hazards and can be easily transported by one person along narrow corridors or doorways.

Can I level the tables if my floor is uneven?

Yes. Two levelling spindles are found above the Jewel caster. To instantly level your table, simply turn the spindle by hand. Every leg has 2 inch of adjustment, ensuring perfect table-top alignment (no tools are required).

Can you produce special sizes?

Subject to quantity we can produce a wide variety of rectangular folding tables. Maximum length available is 71 inch and maximum depth 31½ inch.

Do the tables link together?

No. Our unique Jewel caster eliminates the need for any linking device. When all casters are locked the tables are as strong and sturdy as a fixed table. Simply unlock the casters and you're ready to go – further reducing reconfiguration time and effort. Should linking be required for electrical safety reasons, we can provide the appropriate device.

What leg finishes are available on Kite tables?

Tapered leg: silver, chrome, black

Straight leg: silver, chrome, graphite, white, black

Other colours: price on application; minimum order level may apply.

Can I have electrics in my Kite tables?

Yes. Please contact us for more information

Who uses Kite tables?

Thousands of organizations all over the world use Kite. We can provide references across every sector including banking, education, corporate, healthcare, government and hospitality.

Do all Kite tables fold?

Yes, to a profile of 15½ inch. Even fitted with cable management and/or modesty panel, Kite tables still fold within the same profile.

Do all Kite tables nest?

Yes. All Kite table shapes fold and nest in the same way. Five tables nested will occupy 39½ inch.

Are the casters suitable for hard floors?

Yes. Kite tables are fitted with our patent pending Jewel casters, more durable than a traditional caster and with a unique structure that is suitable for all floors.

What is the warranty Kite?

Kite tables are guaranteed for 10 years under normal wear and tear conditions.

Where can I find a Muzo dealer?

Simply drop us an email with your address and zipcode and we'll put you in touch with your local dealer. The information you provide will always remain confidential.
